***The Yugo Jul 01 2020 Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.***

***Summary of Travel Trends Mar 29 2020 This report is part of a series of products from***

**the 1990 Nationwide Personal Transportation Survey (NPTS). The NPTS dataset contains information about the amount and nature of personal travel in the U.S., as related to the demographics of persons and households. This report highlights the survey results with emphasis on comparing the 1990 data to NPTS data collected in 1969, 1977, and 1983. The report includes topics such as household vehicle availability and use, annual miles per licensed driver, household travel rates, vehicle occupancy, and home-to-work trips. The report also contains a brief look at travel by women and older persons.**

**The Story of the American Revolution Apr 29 2020**

**The World's Worst Cars Nov 05 2020 This text takes a detailed look at motoring mistakes - old and new - and asks questions like: why did they ever reach the showroom? What went wrong? Who bought these cars? Featuring 150 of the cars we love (and love to hate), this text celebrates the world's worst cars in all their flawed glory.**

**Comeback Dec 26 2019 In Comeback, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto**

**business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.**

**Crap Cars Dec 06 2020 From the Austin Allegro to the Renault Safrane, and from the MGB to the Volkswagen Beetle, this book brings together 50 of the worst cars ever to grace the roads of Britain. The book features everything from the aesthetically pathetic to the mechanically misguided and includes tales of the most bizarre and appalling cock-ups in motoring history. With full-colour photos to illustrate each entry, this chronicle of classically Crap Cars will transport you back to the beige and brown world of the seventies and eighties and your very own Morris Marina.**

**AAA 1996 Autograph Book Apr 10 2021 Evaluates the latest models of American and imported cars, discussing strong and weak points of each model, fuel economy, cargo space, and more**

**Lemon-Aid Suvs, Vans, Truck 2003 Jul 13 2021**

**Honda Engine Swaps May 31 2020 When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.**

**Unsafe at Any Speed Oct 24 2019**

**Manual on Classification of Motor Vehicle Traffic Accidents Aug 22 2019 The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions.
