Colonial Fantasies, Imperial Realities Jan 27 2020 In Colonial Fantasies, Imperial Realities, Lenny Ureña Valerio offers a transnational approach to Polish-German relations and nineteenth-century colonial subjectivities. She investigates key cultural dynamics in the history of medicine, colonialism, and migration that bring Germany and Prussian Poland closer to the colonial and postcolonial worlds in Africa and Latin America. She also analyzes how Poles in the German Empire positioned themselves in relation to Germans and native populations in overseas colonies. She thus recasts Polish perspectives and experiences, allowing new insights into identity formation and nationalist movements within the German Empire. Crucially, Ureña Valerio also studies the medical projects and scientific ideas that traveled from colonies to the German metropole, and vice versa, which were influential not only in the racialization of Slavic populations, but also in bringing

scientific conceptions of race to the everydayness of the German Empire. As a whole, Colonial Fantasies, Imperial Realities illuminates nested imperial and colonial relations using sources that range from medical texts and state documents to travel literature and fiction. By studying these scientific and political debates, Ureña Valerio uncovers novel ways to connect medicine, migration, and colonialism and provides an invigorating model for the analysis of Polish history from a global perspective.

Jeep Cherokee XJ Performance Upgrades Jan 19 2022 The Jeep Cherokee XJ is a pioneering SUV that delivers commendable performance and off-road capability. More than 3 million Cherokee XJs were manufactured during its production run. However, when the XJs rolled off the production lines, they were built primarily for the street. As a result, XJs need crucial modifications and high-performance upgrades to make them better for off-road duty. In this updated edition, author and veteran Cherokee expert Eric Zappe guides you through each stage of an XJ build, so you can take the mild-mannered, bone-stock XJ and upgrade it to a capable off-road performer. Zappe delves into suspension bolt-on improvements, including lift kits to increase ground clearance and suspension travel. He also covers high-performance shocks and long-arm suspensions. Wheels and tires are your vital link to the terrain, and he reveals all the important considerations so you select the right combination. XJs need a heavy-duty steering system to negotiate challenging off-road conditions, and Zappe explains several ways to upgrade the steering. Driveline and axle upgrades are an important part of the performance equation, so these performance improvements are covered as well. But he doesn't stop there; he also explores engine performance improvements for the 2.5-, 2.8-, 4.0-liter engines so the Cherokee has more power for off-road performance. In addition, he covers some basic tips for body strengthening and adding skid plates. If you're ready to go off road with your Cherokee but you're not planning to build a top-dollar off-road machine, this is the book for you. With the techniques and latest products described in this book, you will be able to upgrade your XJ to much higher level of performance and your XJ will be at home off and on road.

Relics of the Franklin Expedition Oct 28 2022 *Sir John Franklin's Arctic expedition departed England in 1845 with two Royal Navy bomb vessels, 129 men and three years' worth of provisions. None were seen again until nearly a decade later, when their bleached bones, broken instruments, books, papers and personal effects began to be recovered on Canada's King William Island. These relics have since had a life of their own--photographed, analyzed, cataloged and displayed in glass cases in London. This book gives a definitive history of their preservation and exhibition from the*

Victorian era to the present, richly illustrated with period engravings and photographs, many never before published. Appendices provide the first comprehensive accounting of all expedition relics recovered prior to the 2014 discovery of Franklin's ship HMS Erebus.

Raoul Bott: Collected Papers Jun 19 2019 This book is the fifth and final volume of Raoul Bott's Collected Papers. It collects all of Bott's published articles since 1991 as well as some articles published earlier but missing in the earlier volumes. The volume also contains interviews with Raoul Bott, several of his previously unpublished speeches, commentaries by his collaborators such as Alberto Cattaneo and Jonathan Weitsman on their joint articles with Bott, Michael Atiyah's obituary of Raoul Bott, Loring Tu's authorized biography of Raoul Bott, and reminiscences of Raoul Bott by his friends, students, colleagues, and collaborators, among them Stephen Smale, David Mumford, Arthur Jaffe, Shing-Tung Yau, and Loring Tu. The mathematical articles, many inspired by physics, encompass stable vector bundles, knot and manifold invariants, equivariant cohomology, and loop spaces. The nonmathematical contributions give a sense of Bott's approach to mathematics, style, personality, zest for life, and humanity. In one of the articles, from the vantage point of his later years, Raoul Bott gives a tour-de-force historical account of one of his greatest achievements, the Bott periodicity theorem. A large number of the articles originally appeared in hard-to-find conference proceedings or journals. This volume makes them all easily accessible. It also features a collection of photographs giving a panoramic view of Raoul Bott's life and his interaction with other mathematicians.

Where They Lay Nov 17 2021 PEN/Martha Albrand Award Finalist: The suspenseful, "poignant" true story of the search for an American military pilot's remains in Southeast Asia (James Bradley, author of *Flags of Our Fathers*). *Where They Lay* is both an account of an elite military team's high-tech, high-risk search for a Vietnam War pilot's remains, and a moving retelling of his intense final hours. In far-flung rain forests and its futuristic lab near Pearl Harbor, the Central Identification Laboratory (CILHI) strives to recover and identify the bodies of fighting men who never came home

from America's wars. Its mission combines old-fashioned bushwhacking and detective work with the latest in forensic technology. Earl Swift accompanies a CILHI team into the Laotian jungle on a search for the remains of Maj. Jack Barker and his three-man crew, whose chopper went down in a fireball more than thirty years ago. He interweaves the story of the recovery team's work with a tense account of Barker's fatal attempt to rescue trapped soldiers during the largest helicopter assault in history. The first reporter ever allowed to follow a recovery mission—as these archaeological digs are called—in its entirety, Swift got his hands dirty, combing the jungle floor for clues amid vipers, monsoons, and unexploded bombs. In this “hands-on, thought-provoking” account, he reveals the dedication not only of the fallen servicemen but of the scientists who search for them, and explores questions about the cost of these missions and the corruption among native officials that may compromise them (Minneapolis Star-Tribune). “Informative . . . He interweaves accounts of a generation's worth of site sifting, involving everything from the most basic shovel work to satellite relaying of computer data, with the whole history of the remains-recovery project . . . He also paints a vivid portrait of deeply impoverished Laos, the sometimes helpful Laotians and the military professionals and technical specialists who make up the search teams.” —Publishers Weekly “An unusual tale of war and remembrance.” —Kirkus Reviews

Black as Blood Jan 07 2021 In a world where the dead walk, however poorly, for a corpse to sit up at his funeral and curse his ex-partner is shocking but not unheard of. Murder, mayhem, and mirth follow, involving partner Bernie McKay, "Hat" Stetson and his redneck friends, Justin Waley the sword-swinging accountant, and Rod Parker the troll-like deputy sheriff in a search for stolen gold, for revenge, for the truth. ~~~~~ Excerpt ~~~~~ "Hyaw Raw Yaw!" Bernie McKay jumped and looked around in the dim room. Someone was coming at him from the kitchen! He had stumbled away from the stair, so he ran and ducked behind the couches around the coffee table, heart beating quickly. It came into the light from the window. "No! You're dead!" Uncle Albert's face gleamed waxily, pulled back and fixed into a scowl, teeth gleaming. His eyes were swelling, popping out, despite the embalming. He cawed and croaked, no longer able to speak intelligibly? but hatred still animated him enough to send him shambling around the coffee table and its couches. His best suit was incongruously festive, the diamond winking from his tie, shirt sleeves open where he'd lost his studs, black shoes scuffed. "Harr Yaw!" "Back? get back?" Bernie danced sideways, spun a chair into the thing's way. It patiently fumbled the fallen chair aside, never taking its gaze off him. "Raw Raw Rawrr." It came on, not fast, not slow, more than ever like some wind-up machine, clumsy, powerful, unsophisticated. Bernie was frightened, but despite that he had a sudden flood of unreality. It was too absurd a picture, himself confronting this tenacious dead thing from which all rationality had departed. What would the neighbors think? A flash of anger shook him. "You stupid asshole!" he barked. "You can't come in here like this?" Ignoring him, it got close enough to lunge. Sweating, Bernie danced around again, brief anger gone and choky fear back. It wouldn't ever stop coming? He gripped the smaller of the couches. When it turned and started for him again, he aimed the couch like a pool cue and thrust with panicky strength. It was too slow to dodge and was bowled over backward. Shrieking You old bastard, Bernie was running for it even as it fell. He grabbed a chair and made a full overhand sweep with it, staggering as its legs bounced off the ceiling. It came down with diminished force on Uncle Albert's unprotected head. Wood or bone crunched, and Bernie raised the chair again, panting, glaring. This time he swept it around in a lower arc, but the corpse let itself fall backward to raise its arms. The chair crashed into them and did little harm. Before he could pull it back, Uncle Albert, cawing, had seized it. For a moment there was a nightmarish tug of war over the chair, then Bernie released it, falling back to the fireplace. The corpse struggled slowly to its feet; Bernie wasted time fumbling for the poker because he couldn't bear to look away from it. When he finally had it, the corpse was upright and swinging the chair back over its head, stumbling toward him. Quickly Bernie ran at it, taking advantage of its slow clumsiness, to shove it. But that brought him face to face with it, and into its evil putrid chemical odor. He almost panicked, eyeball to eyeball with Death. Hysterically he shoved it away, screaming, "Die! Die! Die!" and swinging the poker again and again, smashing the face, the head, the chair it finally brought forward, following it up as it staggered backward, as it fell, striking and striking and striking, screaming and screaming. "Dirty rotting scoundrel!"
