Planning New Towns Sep 17 2021

Cisco Next-Generation Security Solutions Feb 20 2022 Network threats are emerging and changing faster than ever before. Cisco Next-Generation Network Security technologies give you all the visibility and control you need to anticipate and meet tomorrow's threats, wherever they appear. Now, three Cisco network security experts introduce these products and solutions, and offer expert guidance for planning, deploying, and operating them. The authors present authoritative coverage of Cisco ASA with FirePOWER Services; Cisco Firepower Threat Defense (FTD); Cisco Next-Generation IPS appliances; the Cisco Web Security Appliance (WSA) with integrated Advanced Malware Protection (AMP); Cisco Email Security Appliance (ESA) with integrated Advanced Malware Protection (AMP); Cisco AMP ThreatGrid Malware Analysis and Threat Intelligence, and the Cisco Firepower Management Center (FMC). You'll find everything you need to succeed: easy-to-follow configurations, application case studies, practical triage and troubleshooting methodologies, and much more. Effectively respond to changing threat landscapes and attack continuums Design Cisco ASA with FirePOWER Services and Cisco Firepower Threat Defense (FTD) solutions Set up, configure, and troubleshoot the Cisco ASA FirePOWER Services module and Cisco Firepower Threat Defense Walk through installing AMP Private Clouds Deploy Cisco AMP for Networks, and configure malware and file policies Implement AMP for Content Security, and configure File Reputation and File Analysis Services Master Cisco AMP for Endpoints, including custom detection, application control, and policy management Make the most of the AMP ThreatGrid dynamic malware analysis engine Manage Next-Generation Security Devices with the Firepower Management Center (FMC) Plan, implement, and configure Cisco Next-Generation IPS—including performance and redundancy Create Cisco Next-Generation IPS custom reports and analyses Quickly identify the root causes of security problems *Multifunctional Nanoparticles for Drug Delivery Applications* Jan 10 2021 This book clearly demonstrates the progression of nanoparticle

therapeutics from basic research to applications. This book, unlike others covering nanoparticles used in medical applications, presents the medical challenges that can be reduced or even overcome by recent advances in nanoscale drug delivery. Each chapter highlights recent progress in the design and engineering of select multifunctional nanoparticles with topics covering targeting, imaging, delivery, diagnostics, and therapy.

Imaging & Document Solutions Oct 19 2021

Design, Synthesis, Multifunctionalization and Biomedical Applications of

Multifunctional Mesoporous Silica-Based Drug Delivery Nanosystems Jul 04 2020

This thesis reports on essential advances in the design, synthesis and biomedical applications of multifunctional Mesoporous Silica Nanoparticles (MSNs). It provides several examples of multifunctional MSN-based drug delivery nanosystems and demonstrates successful synergistic cancer therapies combining MSNs and high-intensity focused ultrasound. The book will especially be of interest to researchers and graduate students in the fields of biomaterials, biology, chemistry, medicine and the life sciences who are working to develop new methods and technologies to combat cancer.

Proceedings of the 2nd International Conference on Building Innovations Apr 12 2021

This book gathers the latest advances, innovations, and applications in the field of building design and construction, by focusing on new design solutions for buildings and new technologies creation for construction, as presented by researchers and engineers at the 2nd International Conference Building Innovations (ICBI), held in Poltava - Baku, Ukraine - Azerbaijan, on May 23-24, 2019. It covers highly diverse topics, including structures operation, repairing and thermal modernization in existing buildings and urban planning features, machines and mechanisms for construction, as well as efficient economy and energy conservation issues in construction. The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.

Multifunctional Wetlands May 26 2022 This book

describes how natural or constructed wetlands can be used to reduce pollution of freshwater and coastal ecosystems, while still preserving their biodiversity and ecological functions. Through a series of case histories described in 10 chapters in the monograph, the readers will gain an understanding of the opportunities, as well as the challenges associated with reducing point and non-point source pollution using natural, restored or constructed wetlands. The target audience will be water practitioners involved in projects utilizing integrated watershed management approaches to pollution abatement, as well as researchers who are designing projects focused on this topic.

Advanced Lightweight Multifunctional Materials

Sep 05 2020 Advanced Lightweight Multifunctional Materials presents the current state-of-the-art on multifunctional materials research, focusing on different morphologies and their preparation and applications. The book emphasizes recent advances on these types of materials as well as their application. Chapters cover porous multifunctional materials, thermochromic and thermoelectric materials, shape memory materials, piezoelectric multifunctional materials, electrochromic and electrorheological, soft materials, magnetic and photochromic materials, and more. The book will be a valuable reference resource for academic researchers and industrial engineers working in the design and manufacture of multifunctional materials, composites and nanocomposites.

Provides detailed information on design, modeling and structural applications Focuses on characteristics, processing, design and applications Discusses the main types of lightweight multifunctional materials and processing techniques, as well as the physico-chemical insights that can lead to improved performance

EURAU 2016 - ABSTRACTS Oct 26 2019

Descrierea CIP a Bibliotecii Naționale a României EURAU 2016 - In between scales - European Symposium on Research in Architecture and Urban Design : abstracts : Bucharest, September 28-30th, 2016 / ed.: conf. dr. arh. Andra Panait. - București : Editura Universitară "Ion Mincu", 2016 ISBN

978-606-638-140-6 I. European Symposium on Research in Architecture and Urban Design - EURAU 2016 (2016; Bucharest) II. Panait, Andra (ed.) 72(063) Graphic design: Andra Panait We acknowledge the help in preparing this volume to the following peoples: Beatrice-Gabriela JÖGER, Daniel COMȘA, Marina MIHĂILĂ, Mihaela ZAMFIR, Oana DIACONESCU, Anda SFINTEȘ, Daniel ARMENCIU, Cătălin CARAGEA, Delia PRISECARU, Ștefan MIHĂILESCU, Anca PĂSĂRIN. EURAU2016 conference and publications were held under the patronage of ANCSI (Autoritatea Națională pentru Cercetare Științifică și Inovare). introduction The eighth edition of the European Symposium on Research in Architecture and Urban Design will be held from the 28th to the 30th of September 2016 in Bucharest. The seminar will take place at the "Ion Mincu" University of Architecture and Urban Planning from Bucharest in collaboration with the institutions that organized the previous editions: École Nationale Supérieure d'Architecture de Marseille, on doctoral research (2004); École Nationale Supérieure d'Architecture et Paysage de Lille, on large scale (2005); Association des Instituts Supérieurs Brussels-Liège-Mons (IESA), on cultural heritage (2006); Escuela Superior de Arquitectura de la Universidad Politécnica de Madrid, under the theme cultural landscape (2008); Facoltà di Architettura dell'Università degli Studi di Napoli Federico II, under the theme venustas (2010); Faculdade de Arquitectura da Universidade do Porto, on public space and contemporary city (2012); Faculty of Architecture of the Istanbul Technical University, on composite cities (2014). The project EURAU is constituted within a network of schools and researchers in Architecture and Urbanism, meeting every two years to share the status of their investigation. In the long-term, it is intended to lead to the creation of a physical meeting and deposit space with all the research undertaken and ongoing in Europe to facilitate the sharing of resources and deepening of knowledge in these scientific areas. The main concern of the EURAU is to establish itself as a place of debate and discussion of thematic disciplines of Architecture, City and Town Planning. The theme of EURAU 2016 is "In Between Scales." Assoc.Prof. Beatrice-Gabriela

[Sustainable Solutions for Railways and Transportation Engineering](#) Nov 27 2019 This volume brings together scientific experts in different areas that contribute to the railway track and transportation engineering challenges, evaluate the state-of-the-art, identify the shortcomings and opportunities for research and promote the interaction with the industry. In particular, scientific topics that are addressed in this volume include railway ballasted track degradation/settlement problems and

stabilization/reinforcement technologies, switches and crossings and related derailments causes, train-induced vibrations and mitigation measures, operations, management and performance of ground transportation, and traffic congestion and safety procedures. The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures, Egypt 2018 - The official international congress of the Soil-Structure Interaction Group in Egypt (SSIGE).

Knowledge Innovation On Design And Culture - Proceedings Of The 3rd Ieee International Conference On Knowledge Innovation And Invention 2020 (Ieee Ickii 2020) Nov 07 2020

This volume is the proceedings of the 3rd IEEE International Conference on Knowledge Innovation and Invention 2020 (IEEE ICKII 2020). The conference was organized by the IEEE Tainan Section Sensors Council (IEEE TSSC), the International Institute of Knowledge Innovation and Invention (IICKII), and the National University of Kaohsiung, Taiwan, and held on August 21-23, 2020 in Kaohsiung. This volume of Knowledge Innovation on Design and Culture selected 95 excellent papers from the IEEE ICKII 2020 conference in the topics of Innovative Design and Cultural Research and Knowledge Innovation and Invention. This proceedings presents the research results based on the interdisciplinary collaboration of social sciences and engineering technologies by international networking in the academic and industrial fields.

Multifunctional Hydrogels for Biomedical Applications Oct 07 2020

Multifunctional Hydrogels for Biomedical Applications Comprehensive resource presenting a thorough overview of the biomedical applications of hydrogels This book provides an overview of the development and applications of the clinically relevant hydrogels that are used particularly in tissue engineering, regenerative medicine, and drug delivery. Taking a multidisciplinary approach, it goes through the material from chemistry, materials science, biology, medicine, nanotechnology, and bioengineering points of

view. Sample topics covered by the three well-qualified editors include: The design, functions, and developments of hydrogels Proteins and polysaccharides that mimic extracellular matrix Generation and applications of supramolecular hydrogels Design and functions of cell encapsulation systems Multifunctional Hydrogels for Biomedical Applications is a useful all-in-one reference work for materials scientists, polymer chemists, and bioengineers which provides a comprehensive, contemporary understanding of hydrogels and their applications targeting a wide variety of pathologies.

Advanced Processing and Manufacturing Technologies for Nanostructured and Multifunctional Materials II, Volume 36, Issue 6 Feb 29 2020 The Ceramic Engineering and Science Proceeding has been published by The American Ceramic Society since 1980. This series contains a collection of papers dealing with issues in both traditional ceramics (i.e., glass, whitewares, refractories, and porcelain enamel) and advanced ceramics. Topics covered in the area of advanced ceramic include bioceramics, nanomaterials, composites, solid oxide fuel cells, mechanical properties and structural design, advanced ceramic coatings, ceramic armor, porous ceramics, and more.

EBOOK: Management Control Systems, 2e Jun 02 2020 EBOOK: Management Control Systems, 2e

Rural Education in the 21st Century Jan 28 2020 Rural schools, and the large chunk of the nation's students who attend them, face challenges every bit as daunting as those of their urban counterparts. It is important to keep in mind that rural schools differ greatly from one another. But as a group, students in these schools generally score as well as or better than non-rural students on standardised tests. The makeup of student populations in rural schools differs considerably across the country as well. As a whole, rural students are predominantly white. Studies in several states have shown that small schools and districts can overcome the adverse effects of poverty on student achievement and narrow the achievement gap between poor students and their more affluent peers.

Multifunctional Polymeric Materials for

Drug and Gene Delivery Aug 05 2020

Composite, Hybrid, and Multifunctional Materials, Volume 4 May 02 2020

Experimental Mechanics of Composite, Hybrid, and Multifunctional Materials, Volume 4: Proceedings of the 2014 Annual Conference on Experimental and Applied Mechanics, the fourth volume of eight from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on a wide range of areas, including: Composites for Energy Applications Novel/Bio Composites NDE of Composites Mechanical Testing of Composites Strain Measurements Using Digital Image Correlation Digital Image Correlation for Composite Structures Particulate Composites Nanocomposites

Avatar-Based Control, Estimation, Communications, and Development of Neuron Multi-Functional Technology Platforms Aug 17

2021 Competition in today's global market offers strong motivation for the development of sophisticated tools within computer science. The neuron multi-functional technology platform is a developing field of study that regards the various interactive approaches that can be applied within this subject matter. As advancing technologies continue to emerge, managers and researchers need a compilation of research that discusses the advancements and specific implementations of these intelligent approaches with this platform. Avatar-Based Control, Estimation, Communications, and Development of Neuron Multi-Functional Technology Platforms is a pivotal reference source that provides vital research on the application of artificial and natural approaches towards neuron-based programs. While highlighting topics such as natural intelligence, neurolinguistics, and smart data storage, this publication presents techniques, case studies, and methodologies that combine the use of intelligent artificial and natural approaches with optimization techniques for facing problems and combines many types of hardware and software with a variety of communication technologies to enable the development of innovative applications. This book is ideally designed for researchers, practitioners, scientists, field experts, professors, and students seeking

current research on the optimization of avatar-based advancements in multifaceted technology systems.

Advanced Processing and Manufacturing Technologies for Structural and Multifunctional Materials V Aug 24 2019 This book is a collection of papers from The American Ceramic Society's 35th International Conference on Advanced Ceramics and Composites, held in Daytona Beach, Florida, January 23-28, 2011. This issue includes papers presented in the 5th International Symposium on Advanced Processing and Manufacturing Technologies for Structural and Multifunctional Materials and Systems on topics such as Design-Oriented Manufacturing and Novel Forming and Sintering. Papers from a special session held in honor of Katsutoshi Komeya of Yokohama National University, Japan are also included.

Environmental Impact of Aviation and Sustainable Solutions Aug 29 2022
Environmental Impact of Aviation and Sustainable Solutions is a compilation of review and research articles in the broad field of aviation and the environment. Over three sections and thirteen chapters, this book covers topics such as aircraft design and materials, combustor modeling, atomization, airport pollution, sonic boom and street noise pollution, emission mitigation strategies, and environmentally friendly contributions from a Russian aviation pioneer. This volume is a useful reference for both researchers and students interested in learning about various aspects of aviation and the environment

Strategy, Organization and Performance Management Feb 08 2021 Designing effective organizations is a key challenge for companies in particular in the fast-moving business world of today. The late 1990s and early 2000s have seen multiple Organization Management innovations applied successfully such as Business Process Outsourcing, Shared Services and Offshoring.

Advanced techniques such as Balanced Scorecards and integrated Planning Systems have become effective enablers for strategy execution. This book spans a framework from strategy definition and designing strategy-compliant organizations to monitoring effective implementation and Performance Management. On this journey basic principles of Organization Management are discussed in detail and at the same time state-of-the-art Best Practices are highlighted. A set of to-the-point case studies demonstrate how leading-edge companies make effective use of the concepts discussed. The approach of the book is of great use for both: students underway to become Organization Management practitioners and experienced business experts in search of the latest thinking and tools to enhance Organizational Effectiveness - and everybody in between. Instant access to electronic ebook edition available. Click on Diesel eBooks logo to the left.

Outsourcing Professional Body of Knowledge - OPBOK Version 10 Mar 24 2022 Outsourcing is here to stay. It is inextricably linked to the globalization of business. International trade networks continue to connect the world's economies and organizations increasingly turn to partners, often through outsourcing, to help them: • better leverage what they are best at, • gain greater flexibility and reach and • drive down their overall business costs and risks. The Harvard Business Review lists outsourcing as one of the most important new management ideas and practices of this century. This substantial title is the official version of the Outsourcing Professional Body of Knowledge by IAOP (International Association of Outsourcing Professionals), in short: OPBOK. This is the official publication of OPBOK Version 10. This new version has been revised on these points: • New appendix on applicable Rules and Regulations applicable to outsourcing. • New appendices mapping COP Standards to eSCM-SP and eSCM-SP capability models. • New and updated definitions on various forms of outsourcing, graphics, and templates. • More detailed discussions on: various outsourcing geographies, renewing and exiting agreement options, change management, multi-sourcing management and roles of PMO, and other new trends in outsourcing. Also, this

Version 10 of OPBOK identifies the best practices of outsourcing professionals around the globe and presents the reader with a complete and practical guide to this emerging, complex discipline. It gives readers full guidance on the critical 'make or break' factors in any outsourcing program: • governance and defining a strategic approach to Outsourcing; • identifying and communicating business requirements; • selecting and qualifying providers; • gaining internal buy-In, creating project teams; • value assessment (value for money and return on investment). This authoritative title provides an invaluable resource for any outsourcing professional: the best practice guidance is complemented by practical checklists and templates. Readers can therefore apply rigorous disciplines to ensure internal and external requirements are fully considered and implemented at each stage of the process. To support the application of OPBOK in organizations, the templates in Appendix A are also available as separate publication: Outsourcing Professional Body of Knowledge: OPBOK Version 10 - Templates (978 94 018 0536 0) It will become a key desktop resource for successful outsourcing professionals who achieve corporate and personal goals in this field. • There is also a template available. This Template is a Word file; to be used with Microsoft Office 2010 and more recent versions. • This template is only available via Van Haren Publishing! • These Templates are additional material to the VHP publication: ISBN 978 94 018 0536 0 "a href="/9789401800006">klik hier

Computerworld Jan 22 2022 For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Reconstruction and Restoration of Architectural Heritage Jul 16 2021

Reconstruction and Restoration of Architectural Heritage 2020 includes contributions on the protection, and restoration of architectural monuments and the reconstruction of major historical urban development sites, as well as various complex issues and aspects of engineering reconstruction of monuments and preservation of historical heritage. The contributions were presented at the eponymous conference (RRAH 2020, St Petersburg, Russia, 25-28 March 2020), and cover a wide range of topics: - Historical, architectural and urban planning research and restoration of monuments - Urban and regional planning - Engineering reconstruction, performance of repair and reconstruction works on monuments - Training of architects and restorers Reconstruction and Restoration of Architectural Heritage 2020 will be of interest to academics and professionals involved in the history and restoration of nature reserves, estates, cities and monuments.
