**Global Perspectives on Military Entrepreneurship and Innovation** Apr 26 2020 Like other organizations across the world, military establishments apply the concept of entrepreneurship to day-to-day activities. However, literature on the topic runs thin, creating a gap in the research on this area of military involvement in entrepreneurship. These studies focus heavily on three topics: ex-military officers in entrepreneurship, entrepreneurial-minded individuals still in the military, and military spouses as successful entrepreneurs. It is essential that researchers interrogate these three areas across different locational contexts for a clear representation and understanding of the many forms of military entrepreneurship. This research focuses on outcomes, the entrepreneurial process, economic activities, and ontological directions. Military entrepreneurship is cross-cultural; spans varied locations; and is linked to retired, retiring, serving military personnel, and military spouses. *Global Perspectives on Military Entrepreneurship and Innovation* builds on existing theoretical and empirical studies in the areas of entrepreneurship and military business and enterprise to interrogate the concepts of military entrepreneurship, veteran entrepreneurship, military spouse entrepreneurship (or military women entrepreneurship), and retirees' entrepreneurship. The book is a collection of studies on military entrepreneurship, treating the subject with emphasis on metacognition, and interrogates differences in metacognitive processing across cultures and values relating to military entrepreneurship. The chapters cover various concepts in military entrepreneurship and promote entrepreneurship research within the military ecosystem. This book is ideal for military personnel, entrepreneurs, managers, practitioners, researchers, academicians, and students interested in the concept of military entrepreneurship and innovation narratives.

*Family Business Studies* Aug 31 2020 Ô This book provides a thorough review and compendium of important family business research. It should be in the personal library of every family business scholar and graduate student involved in this vital field of study. Ô Ð Michael A. Hitt, Texas A&M University, US Ô A systematic review of the field and an incredibly useful reference book for anyone involved in studying or teaching family business. Ô Ð Sara Carter OBE FRSE, Strathclyde Business School, UK Ô This book offers a succinct but thorough overview of how our understanding of significant issues in family business has evolved through rigorous research. This annotated bibliography of the 215 top-cited family business studies provides the empirical evidence and the basis for insightful comments from the authors on topics which will benefit from further scholarly debate and research. The authors are to be congratulated for making accessible those research contributions which have the potential to make a meaningful difference to the practice of family business. Ô Ð Jill Thomas, The University of Adelaide Business School, Australia Ô I highly recommend the annotated bibliography by De Massis, Sharma, Chua, and Chrisman to experienced scholars as well as to incoming researchers. The authors selected carefully (and in a transparent manner) relevant papers and summarized them in a way that provides a helpful basis for future research. Well done! Ô Ð Sabine B. Rau, WHU Ð Otto Beisheim School of Management, Germany Ô A welcome addition to the field of family business studies! Offers an update and thorough compendium of relevant research conducted within the last 15 years. A most useful reference for doctoral students, established scholars and thoughtful practitioners. Importantly, the first three chapters offer critical commentary and synthesis that go well beyond what one typically finds in an annotated bibliography. Overall, this book offers a solid foundation for moving the study of family business forward. Ô Ð Lloyd Steier, University of Alberta, Canada Ô If I had been asked to suggest the currently most-needed editorial endeavor for advancing family business studies, I would have answered with no hesitation: an up-to-date annotated bibliography. The field's growth over the past 15 years has been so intense, that even experts who devote most of their research efforts to family business Ð not to mention younger scholars approaching the field Ð will significantly benefit from De Massis, Sharma, Chua, and Chrisman's indispensable work. Ô Ð Carlo Salvato, Bocconi University, Italy and Associate Editor, *Family Business Review* This book catalogues the 215 most-cited empirical, theoretical, and practical articles on family business published in 33 journals since 1996. Researchers, students, and practicing managers will find it indispensable as a quick reference and guide to what we have learned about family firms. Annotations for the articles consist of: summary of key findings, research questions, contributions, and research implications. They also include a detailed description of the methodologies, empirical data, definitions, and conceptual models used. In addition, the book features chapters that review the literature, discuss how family businesses have been defined, present recent trends in family business empirical research, and provide an agenda for future research.
