Altared Sep 08 2020 When Kyle Tackwell Ball's search for a quaint country home near Florence, Italy, in move-in condition somehow led to the purchase of an abandoned church in a small borgo near Greve-in-Chianti called Le Convertoie, she ended up with much more than a project to overcome her newly contracted "empty nest syndrome." Ball soon found herself starring in a "Stones and Bones Classic"; the ruin she'd purchased would require years of renovation and an endless amount of money before it would become habitable. But her journey had unexpected rewards, too: she reconnected with some wonderful friends, made new ones, learned the language of her newly adopted home country, and became experienced in the Italian knack of getting around the system. Most importantly, she learned to appreciate Italian culture, food and wine, and how rewarding it is to give new life to a beautiful old building. Ball's renovation was featured in the March 2010 "Before & After" issue of Architectural Digest, beautifully documented by Kim Sargent of Sargent Architectural Photography.

Proceedings of the 3rd International Symposium of Information and Internet Technology (SYMINTECH 2018) Dec 24 2021 This book gathers the

proceedings of a symposium on the role of Internet technologies and how they can transform and improve people's lives. The Internet is essentially a massive database where all types of information can be shared and transmitted. This can be done passively in the form of non-interactive websites and blogs; or it can be done actively in the form of file sharing and document up- and downloading. Thanks to these technologies, a wealth of information is now available to anyone who can access the Internet. Moreover, Internet technologies are constantly improving: growing faster, offering more diverse information, and supporting processes that would have been impossible in the past. As a result, they have changed, and will continue to change, the way that the world does business and how people interact in their day-to-day lives. In conclusion, the symposium and these proceedings provide a valuable opportunity for leading researchers, engineers and professionals around the globe to discuss the latest advances that are helping the world move forward. They also facilitate the exchange of new ideas in the fields of communication technology to create a dialogue between these groups concerning the latest innovations, trends and concerns, practical challenges and potential solutions in the field of Internet technologies.

Preaching that Matters Jul 27 2019 Listeners do love their pastors and they agree with the sermon content they hear,' Lori Carrell once explained to a group of pastors, 'but most sermons don't ask for change, and most listeners don't experience spiritual growth as a result of the sermon.' A participant responded: 'Let's get practical. I want my preaching to make a difference. What changes are worth making, and how do I make them?' In Preaching that Matters, Lori Carrell shares answers to that question, drawing on the experiences of thousands of people—preachers and their listeners—whose effort she has studied over many years. In each chapter of this book, she offers research revelations about high impact preaching that will encourage and challenge readers to continue to grow as preachers. She then links these principles with Reflective Practice Challenges (RPCs), exercises that honor the rich experiences of pastors while opening opportunities for self-analysis, spiritual introspection, conversation with a trusted other, or implementation of research-based preaching recommendations. The activities have been used by hundreds of other pastors, and each RPC has been carefully selected for its demonstrated contribution to the process of transforming sermon communication. A selection of the RPCs are available as a downloadable file. E-mail resourcematerial@rowman.com for more information. As a communication expert, Carrell approaches preaching from a 'sermon communication' paradigm. She begins with the task of identifying the spiritually transformative purpose of the sermon and then explores exegeting, organizing, deepening, and delivering the sermon, as well as listening to the listeners and planning for continued transformation. Her own goal is simple: to inspire and equip clergy to make changes that will enhance the transformative power of their preaching.
