Nearly 1000 pages of thrills and apocalyptic science fiction. Grab the box set and save over 50% compared to buying the books individually. Interview with the Author Q - What makes the Zombies Are Human series special? An epidemic ravaging the human population. A world spiraling into chaos. People doing whatever it takes to survive. I've always been drawn to the post-apocalyptic genre and wrote Zombies Are Human with all of the end-of-the-world books I've loved in mind. Big epidemics and events that reinvent the world are so thrilling. I also love getting into some of the science, like the genetic engineering, that would make the situations plausible. Zombies Are Human gives you some of that classic Walking Dead zombie fare, but...without giving too much away...I guarantee you've never read a zombie series like this before. Smart. Dangerous. Gritty. With rip-your-heart-out intensity (literally and figuratively in some cases).

How difficult it was to concentrate, even on seemingly menial tasks. Since the Sirens May 17 2021 What would you do if a mysterious plague began to devour your city and the dead started banging on your door? Fifteen-year-old Liam Peters is spending the summer with his great-grandmother (not by choice) when the authorities of St. Louis spin up the tornado sirens to announce a civic emergency. Police robocalls declare mass disturbances throughout the city, suggesting citizens try to escape to safer jurisdictions. Radio offers contradictory instructions: stay inside, hunker down, ride it out. The President tries to convey a message of hope to calm a scared populace, but the tone is interpreted as a goodbye. The mixed messaging sends society--already on the

verge of panic--into a tailspin. When the President signs off, half the city hunkers down while the other half dashes for the interstate. Now Liam is faced with his first dilemma of an increasingly complicated morning. Should he stay with Grandma and attempt to defend her urban home against both the living and the dead, or should he try to get her out of the city to his parents' home in the suburbs? Nothing is ever as simple as it sounds when life and death are on the line. As an avid reader of zombie literature, Liam realizes you go into the zombie apocalypse with the army you have, not the one you want. He sees himself as an unlikely savior, with an unlikely ally, but he embarks on the hero's journey nonetheless. As the city implodes, they race against the clock to outpace desperate refugees, gang violence, criminal opportunists, overzealous military units, scared civilians, and a growing horde of bloodthirsty zombies. He does it while burdened with a woman who is unable to walk more than ten feet without help. As they chase the elusive vision of safety, Liam comes to appreciate why there are no atheists in foxholes. This book is part one of the Sirens of the Zombie Apocalypse series.

Outbreak - Day1 Like a fragile house of cards in a hurricane, Presidents, Premiers, entire governments and their ruling bodies disappeared instantly. Some had ensconced themselves in deep underground bunkers or remained holed up in fortified strongholds, but history would tell that most had been swallowed up by the dead - never to be heard from again. WARNING - SPOILERS AHEAD

Outbreak - Day 9 Reeling from a surprise attack, and with two fires burning out of control, Schriever AFB goes on high alert. Former CDC Scientist Sylvester Fuentes, the apparent target, is killed along with his assistant Jessica Hanson, Brook's brother Carl and a handful of others. Destroyed in the conflagration was the Omega antiserum Fuentes had been working to perfect, and just hours prior had tested successfully on one of the newly infected. Meanwhile, returning prematurely from a mission to set off two nukes in the path of an advancing horde of living dead numbering several hundred thousand strong, and with his Delta Force commander Mike Desantos infected and dying from the Omega virus, Cade Grayson was forced to do something no friend should have to. Then, shortly after taking Desantos's life, and while still cradling the hard charging operator's corpse, the low rumble of the two nuclear detonations signaling the mission's likely success rolled over Schriever. Immediately, Delta Force Captain Cade Grayson begins to formulate a plan that will send him hurtling on a collision course with the parties responsible for the terrorist attack. Six hundred

miles away in Eden, Utah, Duncan Winters, Vietnam-era aviator, hopes to recuperate and ride out the apocalypse in his survivalist/Doomsday prepper brother Logan's compound. In Jackson Hole, Wyoming, the New American capitol and fiefdom of Robert Christian, well-connected billionaire and self-appointed President, Daymon Bush, former BLM firefighter, bides his time with one burning desire: to find his girlfriend Heidi even if it ultimately kills him. Will Cade successfully lobby President Clay and embark on a new mission in order to extract a pound of flesh for Carl and Mike Desantos? Will Brook Grayson and her eleven-year-old daughter Raven continue to temper themselves against the new dangers inside and outside the wire at Schriever? Will Daymon accomplish his goal and survive Jackson Hole? Can the much older Duncan find a way to fit in with his younger brother Logan's prepper friends? Will newly promoted General Ronnie Gaines fit in with the late Commander's fractured Delta team? Can the human race find a way to survive the legions of migrating zombies?
