Security Guard Test Preparation Guide Feb 11 2021 This test preparation guide is designed to assist security guards in preparing for the ministry's mandatory test. The guide will outline key areas that security guards should be familiar with to ensure they perform their duties in accordance with the Private Security and Investigative Services Act, 2005 (PSISA) and its regulations. The subjects covered align with the ministry's Training Syllabus for Security Guards. Although the guide is meant to assist candidates in preparing for and writing the test, it does not constitute a training manual, and is not a substitute for an in-person training course. At the end of each section of this test preparation guide, you will find links to external resources that may be of further assistance to you. Many of these will bring you to various laws and regulations; it is recommended that you have an overall understanding of these and how they relate to key topics covered in the test. Other links will bring you to existing training materials available to the public. While these materials may contain valuable information, please keep in mind that they were not specifically designed for Ontario's security guard and private investigator training and testing program. About the Test The ministry's tests were developed by subject matter experts (SMEs) in the private security and investigative services industry who worked with the ministry's test development consultant, CASTLE Worldwide Inc. The SMEs developed the test questions using a protocol of writing and review that conforms to the best practices of psychological and test development standards. They comprehensively reviewed and validated each question for appropriateness of the answers and correct answer keys. A panel of SMEs also reviewed and tested the questions and participated in setting the cut

scores (pass marks) for the tests. The security guard test is in a written, 60 question, multiple choice format. Test appointments are 2 hours in duration, 75 minutes of which is the allotted test completion time.

Security Guard 108 Aug 20 2021 Growing up on a council estate and going from being bullied, to the bully, Danny's life is set to go down one road, prison. Enrolling into the Army should have been the making of him, but after a traumatic event in the middle east, Danny had no idea how vulnerable his mind could be as he tries to tell his story of events that leads him down a rabbit hole of alien abduction and conspiracies he could never have imagined existed. "Hi, my name is Danny Bridges, and I can tell you one thing. Do not believe a word anyone tells you about aliens unless it is, they are real because from what I have just experienced I never thought they could mess up my life like they have. I am the one you see. They want people like me who have that certain extra intelligence like I have. Got me locked up but that is only the half of it as I will try to explain it to you. The world is under threat and these alien geezers want change to come and for people like me, young and prime to do their bidding once they have brainwashed me, but I am not having it. I will fight to the last breath to stop this happening and if I were you, I'd be careful who you trust because they could be knocking on your door next. I thought I was just a nobody once. A council estate lad from Tamworth with nothing more than my streets to get me by. What a joke that is. Why they wanted me I will explain because I am as sane as you guys. I am not a psychopath or multiple personality dood, I am a regular guy going about his life until this alien stuff kicked off as I will explain. We are not alone guys and once you read my account of the events so far, you had better look over your shoulder the next time you think you are being watched. Because you probably are being watched but not by government bods, by Aliens who want to take over your mind as they are trying to take over mine."

5 Grams Jan 01 2020 In 2010, President Barack Obama signed a law repealing one of the most controversial policies in American criminal justice history: the one hundred to one sentencing disparity between crack cocaine and powder whereby someone convicted of "simply" possessing five grams of crack—the equivalent of a few sugar packets—had been required by law to serve no less than five years in prison. In this highly original work, Dimitri A. Bogazianos draws on various sources to examine the profound symbolic consequences of America's reliance on this punishment structure, tracing the rich cultural linkages between America's War on Drugs, and the creative contributions of those directly affected by its destructive effects. Focusing primarily on lyrics that emerged in 1990s New York rap, which critiqued the music industry for being corrupt, unjust, and criminal, Bogazianos shows how many rappers began drawing parallels between the "rap game" and the "crack game." He argues that the symbolism of crack in rap's stance towards its own commercialization represents a moral debate that is far bigger than hip hop culture, highlighting the degree to which crack cocaine—although a drug long in decline—has come to represent the entire paradoxical predicament of punishment in the U.S. today.
