Right here, we have countless books **Goliath Life And Loathing In Greater Israel Audio Cd Max Blumenthal** and collections to check out. We additionally offer variant types and then type of the books to browse. The standard book, fiction, history, novel, scientific research, as with ease as various additional sorts of books are readily within reach here.

As this Goliath Life And Loathing In Greater Israel Audio Cd Max Blumenthal, it ends up beast one of the favored book Goliath Life And Loathing In Greater Israel Audio Cd Max Blumenthal collections that we have. This is why you remain in the best website to see the unbelievable books to have.

The Triumph of Israel's Radical Right Jun 24 2022 Two decades ago, the idea that a "radical right" could capture and drive Israeli politics seemed highly improbable. While it was a boisterous faction and received heavy media coverage, it constituted a fringe element. Yet by 2009, Israel's radical right had not only entrenched itself in mainstream Israeli politics, it was dictating policy in a wide range of areas. The government has essentially caved to the settlers on the West Bank, and restrictions on non-Jews in Israel have increased in the past few years. Members of the radical right have assumed prominent positions in Israel's elite security forces. The possibility of a two state solution seems more remote than ever, and the emergence of ethnonationalist politician Avigdor Lieberman suggests that its power is increasing. Quite simply, if we want to understand the seemingly intractable situation in Israel today, we need a comprehensive account of the radical right. In The Triumph of Israel's Radical Right, acclaimed scholar Ami Pedahzur provides an invaluable and authoritative analysis of its ascendance to the heights of Israeli politics. After analyzing what, exactly, they believe in, he explains how mainstream Israeli policies like "the right of return" have served as unexpected foundations for their nativism and authoritarian tendencies. He then traces the right's steady rise, from the first intifada to the "Greater Israel" movement that is so prominent today. Throughout, he focuses on the radical right's institutional networks and how the movement has been able to expand its constituency. His closing chapter is grim yet realistic: he contends that a two state solution is no longer viable and that the vision of the radical rabbi Meir Kahane, who was a fringe figure while alive, has triumphed.

Citizen Strangers Mar 29 2020 Following the 1948 war and the creation of the state of Israel, Palestinian Arabs comprised just fifteen percent of the population but held a much larger portion of its territory. Offered immediate suffrage rights and, in time, citizenship status, they nonetheless found their movement, employment, and civil rights restricted by a draconian military government put in place to facilitate the colonization of their lands. *Citizen Strangers* traces how Jewish leaders struggled to advance their historic settler project while forced by new international human rights norms to share political power with the very people they sought to uproot. For the next two decades Palestinians held a paradoxical status in Israel, as citizens of a formally liberal state and subjects of a colonial regime. Neither the state campaign to reduce the size of the Palestinian population nor the formulation of citizenship as a tool of collective exclusion could resolve the government's fundamental dilemma: how to bind indigenous Arab voters to the state while denying them access to its resources. More confounding was the tension between the opposing aspirations of Palestinian political activists. Was it the end of Jewish privilege they were after, or national independence along with the rest of their compatriots in exile? As Shira Robinson shows, these tensions in the state's foundation—between privilege and equality, separatism and inclusion—continue to haunt Israeli society today.

Whither Zionism? Jul 13 2021 The state of Israel was conceived on the model of the Maccabean era. Yet, most people know only of the heroic feats of Judas Maccabeus who led a successful revolt against Greek overlordship, cleansed the Jerusalem temple, and established the feast of Hanukkah. The historical facts surrounding these times are not discussed, although they are vital to our understanding of the currently unfolding events in the Middle East. Human emotions, and as a result human behavior, have not changed in 2000 years and we are now witnessing a replay of history. We know how the Maccabean era ended. We also know the real reasons why the Jews lost their homeland, but only the myths rather than the facts keep getting repeated. This is outright dangerous for the future. We are guided by political and religious propaganda and since our politicians cannot, or will not, take the time to really study history they stumble from one disaster into another. This book is intended to deprive them of excuses because it is short and written in everyday language.

Goliath Sep 27 2022 In *Goliath*, New York Times bestselling author Max Blumenthal takes us on a journey through the badlands and high roads of Israel-Palestine, painting a startling portrait of Israeli society under the siege of increasingly authoritarian politics as the occupation of the Palestinians deepens. Beginning with the national elections carried out during Israel's war on Gaza in 2008-09, which brought into power the country's most right-wing government to date, Blumenthal tells the story of Israel in the wake of the collapse of the Oslo peace process. As Blumenthal reveals, Israel has become a country where right-wing leaders like Avigdor Lieberman and Bibi Netanyahu are sacrificing democracy on the altar of their power politics; where the loyal opposition largely and passively stands aside and watches the organized assault on civil liberties; where state-funded Orthodox rabbis publish books that provide instructions on how and when to kill Gentiles; where half of Jewish youth declare their refusal to sit in a classroom with an Arab; and where mob violence targets Palestinians and African asylum seekers scapegoated by leading government officials as "demographic threats." Immersing himself like few other journalists inside the world of hardline political leaders and movements, Blumenthal interviews the demagogues and divas in their homes, in the Knesset, and in the watering holes where their young acolytes hang out, and speaks with those political leaders behind the organized assault on civil liberties. As his journey deepens, he painstakingly reports on the occupied Palestinians challenging schemes of demographic separation through unarmed protest. He talks at length to the leaders and youth of Palestinian society inside Israel now targeted by security service dragnets and legislation suppressing their speech, and provides in-depth reporting on the small band of Jewish Israeli dissidents who have shaken off a conformist mindset that permeates the media, schools, and the military. Through his far-ranging travels, Blumenthal illuminates the present by uncovering the ghosts of the past—the histories of Palestinian neighborhoods and villages now gone and forgotten; how that history has set the stage for the current crisis of Israeli society; and how the Holocaust has been turned into justification for occupation. A brave and unflinching account of the real facts on the ground, *Goliath* is an unprecedented and compelling work of journalism.

Israel Aug 02 2020 A history of Israel in the context of the modern Jewish experience and the history of the Middle East

Summary of Noam Chomsky, Ilan Pappé & Frank Barat's On Palestine May 23 2022 Please note: This is a companion version & not the original book. Sample Book Insights: #1 The past is ignored in the peace process between Israel and Palestine. The past is everything to the Palestinians, but for the so-called mediators, the past is irrelevant. #2 Zionism is an ideology that was created by the Jewish people to have their own state. It is an ideology of power that is directed against one particular group of people: the Palestinians. It is not a replacement for a more progressive ideology, but rather a challenge to create positions that claim the right of people to elementary human and civil rights. #3 From 1948 onward, Zionism meant the ideology of the state. For many Israelis, it became a state religion. The idea of a Jewish state was changed to include the right to exist, and this was used as a barrier to stop any negotiations between Israel and the Palestinians. #4 Zionism, from its inception, has been a colonialist project. The first wave of settlers who came to Palestine in the 1800s were looking to expand the land they had been given, but were stopped by the native Palestinian population.

The Jewish Political Tradition Jun 19 2019 "This book launches a landmark four-volume collaborative work exploring the political thought of the Jewish people from biblical times to the present. The texts and commentaries in Volume I address the basic question of who ought to rule the community."-- Descripción del editor.

The Hundred Years' War on Palestine Oct 24 2019 A landmark history of one hundred years of war waged against the Palestinians from the foremost US historian of the Middle East, told through pivotal events and family history In 1899, Yusuf Diya al-Khalidi, mayor of Jerusalem, alarmed by the Zionist call to create a Jewish national home in Palestine, wrote a letter aimed at Theodore Herzl: the country had an indigenous people who would not easily accept their own displacement. He warned of the perils ahead, ending his note, “in the name of God, let Palestine be left alone.” Thus Rashid Khalidi, al-Khalidi’s great-great-nephew, begins this sweeping history, the first general account of the conflict told from an explicitly Palestinian perspective. Drawing on a wealth of untapped archival materials and the reports of generations of family members—mayors, judges, scholars, diplomats, and journalists—The Hundred Years' War on Palestine upends accepted interpretations of the conflict, which tend, at best, to describe a tragic clash between two peoples with claims to the same territory. Instead, Khalidi traces a hundred years of colonial war on the Palestinians, waged first by the Zionist movement and then Israel, but backed by Britain and the United States, the great powers of the age. He highlights the key episodes in this colonial campaign, from the 1917 Balfour Declaration to the destruction of Palestine in 1948, from Israel’s 1982 invasion of Lebanon to the endless and futile peace process. Original, authoritative, and important, The Hundred Years' War on Palestine is not a chronicle of victimization, nor does it whitewash the mistakes of Palestinian leaders or deny the emergence of national movements on both sides. In reevaluating the forces arrayed against the Palestinians, it offers an illuminating new view of a conflict that continues to this day.

Why Hawks Become Doves Jul 01 2020 Investigates how leaders’ personalities shape important foreign policy shifts. Why do hawkish leaders change course to pursue dovish policies? In *Why Hawks Become Doves*, Guy Ziv argues that conventional international relations theory is inadequate for explaining these momentous foreign policy shifts, because it underestimates the importance of leaders and their personalities. Applying insights from cognitive psychology, Ziv argues that decision-makers’ cognitive structure—specifically, their levels of cognitive openness and complexity—is a critical causal variable in determining their propensity to revise their beliefs and pursue new policies. To illustrate his point, he examines Israeli statesman Shimon Peres. Beginning his political career as a tough-minded security hawk, Peres emerged as one of the Middle East’s foremost champions of Israeli-Palestinian peacemaking. Drawing on a vast range of sources, including interviews with Peres and dozens of other political elites, archival research, biographies, and memoirs, Ziv finds that Peres’s highly open and complex cognitive structure facilitated a quicker and more profound dovish shift on the Israeli-Palestinian conflict than his less cognitively open and complex rivals. Guy Ziv is Assistant Professor of International Relations at American University’s School of International Service and the author of *Readings in U.S. Foreign Policy: Revised First Edition*.

Narratives of Violence May 11 2021 This title was first published in 2001. The modern state’s claim to a monopoly of legitimate force bestows the concomitant duty of preventing the resort to violence by non-state actors. Consequently, failure to do so often leads to debates, concerning the legitimization of the perpetrators themselves and the legitimization of the authorities who were unable or unwilling to prevent their violent actions. *Narratives of Violence* constitutes the first work which relates these stigma contests to each other by analyzing the public discourse about right-wing violence in Israel. The result is an absorbing book which provides a fundamental re-evaluation of the causes and consequences of political violence and its societal boundaries. Its conclusions will have a resounding impact on the Israeli body politic and for democratic governments around the world.

Yinon Jan 07 2021 'The Yinon Plan ' is the plan for the massive expansion of Israel . There are various stories regarding the origin of this plan , but the basic idea comes from the Founding Father of Zionism , Theodore Herzl , who said : " "the area of the Jewish State stretches: "From the Brook of Egypt to the Euphrates." And , according to Rabbi Fischmann, "The Promised Land extends from the River of Egypt up to the Euphrates, it includes parts of Syria and Lebanon." The is also a brief history of the Jewish peoples and their struggles from ancient times up until today's turbulent times in the middle east

Imperial Israel and the Palestinians Jul 25 2022 A critical history of Israel's expansionist politics that reveals how imperialist tendencies run the gamut from Left to Right.

Realist Constructivism Nov 05 2020 Realism and constructivism, two key contemporary theoretical approaches to the study of international relations, are commonly taught as mutually exclusive ways of understanding the subject. Realist Constructivism explores the common ground between the two, and demonstrates that, rather than being in simple opposition, they have areas of both tension and overlap. There is indeed space to engage in a realist constructivism. But at the same time, there are important distinctions between them, and there remains a need for a constructivism that is not realist, and a realism that is not constructivist. Samuel Barkin argues more broadly for a different way of thinking about theories of international relations, that focuses on the corresponding elements within various approaches rather than on a small set of mutually exclusive paradigms. Realist Constructivism provides an interesting new way for scholars and students to think about international relations theory.

Land or Peace: Whither Israel? Feb 20 2022

Israel, the Middle East, and the Great Powers Sep 03 2020 Israel, The Middle East and the Great Powers presents the Israel-Arab conflict to the general public in a uniquely comprehensive and interdisciplinary format. Its form and content reflect the most serious efforts of Israel's intellectual community to analyze the conflict situation in which they live, objectively and honestly. The book argues that recent events have reduced the U.S. role, and changed the policy parameters in the region. A broad cross-section of Israel's foremost orientalist, historians, jurists and political scientists have contributed a selection of articles and lexicons which embody the essential aspects of the conflict in its broadest sense. Each key element is analyzed within a number of categories: the ideological-theological plane (Judaism, Zionism, the Holocaust, Jerusalem and the three monotheistic religions); the Palestinian sphere (PLO ideology, Jordan and the Judea & Samaria Region, the PLO and the war in Lebanon); the superpowers and the wider region (Iran-Iraq, the Islamic resurgence, oil, the Soviet Union and the Middle East, the United States and Israel), etc. Detailed lexicons offer concise factual breakdowns of both the Middle East (inter-Arab aspects, key Arab countries, conventional and nuclear Arab armaments) and the Arab-Israel context (chronology of the conflict, key events and personalities in Zionism, UN involvement, international legal aspects).

The Iron Cage Jun 12 2021 At a time when a lasting peace between the Palestinians and the Israelis seems virtually unattainable, understanding the roots of their conflict is an essential step in restoring hope to the region. In *The Iron Cage*, Rashid Khalidi, one of the most respected historians and political observers of the Middle East, homes in on Palestinian politics and history. By drawing on a wealth of experience and scholarship, Khalidi provides a lucid context for the realities on the ground today, a context that has been, until now, notably lacking in our discourse. The story of the Palestinian search to establish a state begins in the mandate period immediately following the breakup of the Ottoman Empire, the era of British control, when fledgling Arab states were established by the colonial powers with assurances of eventual independence. Mandatory Palestine was a place of real promise, with unusually high literacy rates and a relatively advanced economy. But the British had already begun to construct an iron cage to hem in the Palestinians, and the Palestinian leadership made a series of errors that would eventually prove crippling to their dream of independence. The Palestinians' struggle intensified in the stretch before and after World War II, when colonial control of the region became increasingly unpopular, population shifts began with heavy Jewish immigration from Eastern Europe, and power began to devolve to the United States. In this crucial period, Palestinian leaders continued to run up against the walls of the ever-constricting iron cage. They proved unable to achieve their long-cherished goal of establishing an independent state—a critical failure that set a course for the decades that followed, right through the eras of the Palestinian Liberation Organization, the Palestinian Authority, and Hamas. Rashid Khalidi's engrossing narrative of this torturous history offers much-needed perspective for anyone concerned about peace in the Middle East.

State Expansion and Conflict Apr 22 2022 A detailed comparison of Lebanon and Israel/Palestine, two expanded states which have experienced conflict and stability domestically and in their mutual relations.

Like Dreamers Aug 22 2019 Winner of the Everett Family Jewish Book of the Year Award (a National Jewish Book Award) and the RUSA Sophie Brody Medal. In *Like Dreamers*, acclaimed journalist Yossi Klein Halevi interweaves the stories of a group of 1967 paratroopers who reunited Jerusalem, tracing the history of Israel and the divergent ideologies shaping it from the Six-Day War to the present. Following the lives of seven young members from the 55th Paratroopers Reserve Brigade, the unit responsible for restoring Jewish sovereignty to Jerusalem, Halevi reveals how this band of brothers played pivotal roles in shaping Israel's destiny long after their historic victory. While they worked together to reunite their country in 1967, these men harbored drastically different visions for Israel's future. One emerges at the forefront of the religious settlement movement, while another is instrumental in the 2005 unilateral withdrawal from Gaza. One becomes a driving force in the growth of Israel's capitalist economy, while another ardently defends the socialist kibbutzim. One is a leading peace activist, while another helps create an anti-Zionist terror underground in Damascus. Featuring an eight pages of black-and-white photos and maps, *Like Dreamers* is a nuanced, in-depth look at these diverse men and the conflicting beliefs that have helped to define modern Israel and the Middle East.

The Israel Lobby and US Foreign Policy Oct 16 2021 Does America's pro-Israel lobby wield inappropriate control over US foreign policy? This book has created a storm of controversy by bringing out into the open America's relationship with the Israel lobby: a loose coalition of individuals and organizations that actively work to shape foreign policy in a way that is profoundly damaging both to the United States and Israel itself. Israel is an important, valued American ally, yet Mearsheimer and Walt show that, by encouraging unconditional US financial and diplomatic support for Israel and promoting the use of its power to remake the Middle East, the lobby has jeopardized America's and Israel's long-term security and put other countries – including Britain – at risk.

The Hidden Hand Apr 29 2020 Examines the power of conspiracy theories in determining the political life of the Middle East, and examines conspiracism as a partial explanation for much of the region's problems

The Great Israel Scavenger Hunt Jul 21 2019 A visit to Israel by Daniel and his parents, a Jewish family, is guided by a scavenger hunt.

The Emergence Of A Binational Israel Jan 19 2022

The Israeli Settler Movement Dec 18 2021 The first systematic analysis and explanation of the political success of the Israeli settler movement. Based on a comprehensive original theoretical framework and rich empirical analysis, this book provides key new insights for the study of both Israeli politics and social movements in general.

In Search of Israel Oct 04 2020 A major new history of the century-long debate over what a Jewish state should be Many Zionists who advocated the creation of a Jewish state envisioned a nation like any other. Yet for Israel's founders, the state that emerged against all odds in 1948 was anything but ordinary. Born from the ashes of genocide and a long history of suffering, Israel was conceived to be unique, a model society and the heart of a prosperous new Middle East. It is this paradox, says historian Michael Brenner--the Jewish people's wish for a homeland both normal and exceptional—that shapes Israel's ongoing struggle to define itself and secure a place among nations. *In Search of Israel* is a major new history of this struggle from the late nineteenth century to our time. When Theodor Herzl convened the First Zionist Congress in 1897, no single solution to the problem of "normalizing" the Jewish people emerged. Herzl proposed a secular-liberal "New Society" that would be home to Jews and non-Jews alike. East European Zionists advocated the renewal of the Hebrew language and the creation of a distinct Jewish culture. Socialists imagined a society of workers' collectives and farm settlements. The Orthodox dreamt of a society based on the laws of Jewish scripture. The stage was set for a clash of Zionist dreams and Israeli realities that continues today. Seventy years after its founding, Israel has achieved much, but for a state widely viewed as either a paragon or a pariah, Brenner argues, the goal of becoming a state like any other remains elusive. If the Jews were the archetypal "other" in history, ironically, Israel—which so much wanted to avoid the stamp of otherness—has become the Jew among the nations.

Israel's Ayatollahs May 31 2020 `When certain Jews say to Arabs: "Look what we've done for you, we found a desert here and transformed it into a garden," the Arab replies, with good reason: "This may be true, but it was my desert and now it has become your garden."That is why I say the Arabs must leave Israel....I want to make life difficult for them. I want them to say to themselves: it doesn't make any sense to go on living here.` --Rabbi Meir Kahane The far right is now a force to be reckoned with in Israel. A plethora of groups -Kach, Tehiya, Morasha, Gush Emunim- advocate the goal of a Greater Israel and the brutal repression of the Palestinians. These groups represent a growing threat not only to Middle East peace, but to the established political order in Israel itself. Raphael Mergui and Philippe Simonnot talk to the leaders of the far right about their aims and methods, their attitudes towards religion and the state. In an extended interview, Meir Kahane-former FBI agent, co-founder of the Jewish Defence League and founder of the extreme -right Kach movement in Israel- argues that the Jewish state cannot be democratic, secular and multi-racial, and that the Arabs should be expelled from Israel and the Occupied Territories. Such men are no longer part of a lunatic fringe. They are gaining increasing respectability and a mass following. They are Israel's ayatollahs.

The Invention of the Land of Israel Sep 22 2019 What is a homeland and when does it become a national territory? Why have so many people been willing to die for such places throughout the twentieth century? What is the essence of the Promised Land? Following the acclaimed and controversial *The Invention of the Jewish People*, Shlomo Sand examines the mysterious sacred land that has become the site of the longest-running national struggle of the twentieth and twenty-first centuries. *The Invention of the Land of Israel* deconstructs the age-old legends surrounding the Holy Land and the prejudices that continue to suffocate it. Sand's account dissects the concept of "historical right" and tracks the creation of the modern concept of the "Land of Israel" by nineteenth-century Evangelical Protestants and Jewish Zionists. This invention, he argues, not only facilitated the colonization of the Middle East and the establishment of the State of Israel; it is also threatening the existence of the Jewish state today.

A State at Any Cost Nov 24 2019 "Tom Segev's meticulously researched and most elegantly written new biography of David Ben-Gurion is a must for anybody interested in both the glorious and the dark pages of the history of Zionism and Israel, as reflected throughout the life and times of the Jewish State's most important founding father" Saul Friedländer, Pulitzer Prize-winning author of *Nazi Germany and the Jews* and *Where Memory Leads*. As the founder of Israel, David Ben-Gurion long ago secured his reputation as a leading figure of the twentieth century. Determined from an early age to create a Jewish state, he took control of the Zionist movement, declared Israel's independence, and navigated his country through wars, controversies and remarkable achievements. In this definitive biography, Tom Segev uses previously unreleased archival material to give an original, nuanced account that transcends the myths and legends that have built up around the man. He reveals Ben-Gurion's secret negotiations with the British on the eve of Israel's independence, his willingness to countenance the forced transfer of Arab neighbours, his relative indifference to Jerusalem, and his occasional eccentric moments – from UFO sightings to plans for Israel to acquire territory in South America. The result is a full and startling portrait of a man who sought a state 'at any cost' – at times through risk-taking, violence, and unpredictability, and at other times through compromise, moderation and reason. Segev's Ben-Gurion is neither a saint nor a villain but a twentieth-century leader whose iron will and complex temperament left a contentious legacy, and one of the world's most intractable national conflicts.

Elvis in Jerusalem Aug 14 2021 As the Middle East conflict enters its most violent phase, Tom Segev offers a lively, contentious polemic against cherished and rigid notions of Israel's national unity and culture. In his many works of history, Tom Segev has challenged the entrenched understanding of crucial moments in Israel's past. Now, in a short, sharp, polemical book, Segev has turned his sights from Israeli history to confront some revered assumptions about the country today. Drawing on personal experience as well as all kinds of artifacts from Israeli popular culture -- shopping malls, fast food, public art, television, religious kitsch -- Segev offers a controversial point of view: the sweeping Americanization of the country, rued by most, has had an extraordinarily beneficial influence, bringing not only McDonald's and Dunkin' Donuts but the virtues of pragmatism, tolerance, and individualism. And, in the fierce battle over the future of Zionism, Segev welcomes the diffusion of national identity and ideology that has taken place in the last decade as a harbinger of a new spirit of compromise and openness. At a time of crisis, as Israelis and Palestinians retreat to their most embattled positions, Segev's colorful, provocative book is sure to spark heated debate. " ... this slender book will be indispensable to anyone trying to understand current events in Israel and the Middle East." - Publishers Weekly

Palestinian and Israeli Public Opinion Mar 09 2021 Palestinian and Israeli Public Opinion is based on a unique project: the Joint Israeli-Palestinian Poll (JIPP). Since 2000, Jacob Shamir and Khalil Shikaki have directed joint surveys among Israelis and Palestinians, providing a rare opportunity to examine public opinion on two sides of an intractable conflict. Adopting a two-level game theory approach, Shamir and Shikaki argue that public opinion is a multifaceted phenomenon and a critical player in international politics. They examine how the Israeli and Palestinian publics' assessments, expectations, mutual perceptions and misperceptions, and overt political action fed into domestic policy formation and international negotiations -- from the failure of the 2000 Camp David summit through the second Intifada and the elections of 2006. A discussion of the study's implications for policymaking and strategic framing of future peace agreements concludes this timely and informative book.

Zionism: Conflict without end? Mar 21 2022 "Volume III" takes the story from the 1967 War and the creation of Greater Israel to the present and explores the question: Can President Obama deliver acceptable justice for Palestinians to achieve peace; and if not, is a final round of Zionist ethnic cleansing inevitable?

Trouble in Utopia Dec 26 2019 This book provides a thorough and detailed examination of Israeli institutions and how they function. It explains the decline in effectiveness of the government and the spread of cultural malaise in the Israel of the eighties. Horowitz and Lissak trace the integrative and disintegrative trends in Israel and show how a society that had laid the foundations for a cohesive Jewish nation-state became increasingly vulnerable to centrifugal forces. The book not only reflects a broad and comprehensive approach, but also focuses on themes that cut across institutional structures, such as the weakening of social and political cohesion in an overburdened polity.

The State of Israel vs. the Jews Dec 06 2020 From an award-winning journalist, a perceptive study of how Israel's actions, which run counter to the traditional historical values of Judaism, are putting Jewish people worldwide in an increasingly untenable position. More than a decade ago, the historian Tony Judt considered whether the behavior of Israel was becoming not only "bad for Israel itself" but also, on a wider scale, "bad for the Jews." Under the leadership of Benjamin Netanyahu, this issue has grown ever more urgent. In *The State of Israel vs. the Jews*, veteran journalist Sylvain Cypel addresses it in depth, exploring Israel's rightward shift on the international scene and with regard to the diaspora. Cypel reviews the little-known details of the military occupation of Palestinian territory, the mindset of ethnic superiority that reigns throughout an Israeli "colonial camp" that is largely in the majority, and the adoption of new laws, the most serious of which establishes two-tier citizenship between Jews and non-Jews. He shows how Israel has aligned itself with authoritarian regimes and adopted the practices of a security state, including the use of technologies such as the software that enabled the tracking and, ultimately, the assassination of Saudi Arabian journalist Jamal Khashoggi. Lastly, *The State of Israel vs. the Jews* examines the impact of Israel's evolution in recent years on the two main communities of the Jewish diaspora, in France and the United States, considering how and why public figures in each differ in their approaches.

Mobilizing for Peace Apr 10 2021 Focusing on the work of nongovernmental organizations (NGOs) in Northern Ireland, South Africa & Israel/Palestine, the contributors investigate the nature of these organizations & how their social systems influence their functions & structures.

Goliath Oct 28 2022 2014 Lannan Foundation Cultural Freedom Notable Book Award In *Goliath*, New York Times bestselling author Max Blumenthal takes us on a journey through the badlands and high roads of Israel-Palestine, painting a startling portrait of Israeli society under the siege of increasingly authoritarian politics as the occupation of the Palestinians deepens. Beginning with the national elections carried out during Israel's war on Gaza in 2008-09, which brought into power the country's most right-wing government to date, Blumenthal tells the story of Israel in the wake of the collapse of the Oslo peace process. As Blumenthal reveals, Israel has become a country where right-wing leaders like Avigdor Lieberman and Bibi Netanyahu are sacrificing democracy on the altar of their power politics; where the loyal opposition largely and passively stands aside and watches the organized assault on civil

liberties; where state-funded Orthodox rabbis publish books that provide instructions on how and when to kill Gentiles; where half of Jewish youth declare their refusal to sit in a classroom with an Arab; and where mob violence targets Palestinians and African asylum seekers scapegoated by leading government officials as "demographic threats." Immersing himself like few other journalists inside the world of hardline political leaders and movements, Blumenthal interviews the demagogues and divas in their homes, in the Knesset, and in the watering holes where their young acolytes hang out, and speaks with those political leaders behind the organized assault on civil liberties. As his journey deepens, he painstakingly reports on the occupied Palestinians challenging schemes of demographic separation through unarmed protest. He talks at length to the leaders and youth of Palestinian society inside Israel now targeted by security service dragnets and legislation suppressing their speech, and provides in-depth reporting on the small band of Jewish Israeli dissidents who have shaken off a conformist mindset that permeates the media, schools, and the military. Through his far-ranging travels, Blumenthal illuminates the present by uncovering the ghosts of the past—the histories of Palestinian neighborhoods and villages now gone and forgotten; how that history has set the stage for the current crisis of Israeli society; and how the Holocaust has been turned into justification for occupation. A brave and unflinching account of the real facts on the ground, Goliath is an unprecedented and compelling work of journalism.

Zionism: The Real Enemy of the Jews, Volume 3 Aug 26 2022 Conflict Without End, Volume III of Hart's multi-volume work, ZIONISM, THE REAL ENEMY OF THE JEWS takes the story from the 1967 war and the creation of Greater Israel to the present and the question: Will President Obama be allowed to deliver an acceptable amount of justice for the Palestinians in order to achieve peace for all, and, if he can't deliver, is a final round of Zionist ethnic cleansing inevitable? Chapter 2, The Liberty Affair – "Pure Murder" on a "Great Day", tells the incredible but true story of Israel's deliberate attack on the American spy ship and how the truth was covered up, allowing the Israelis to get away with the cold-blooded murder of American service personnel. Chapter 3. Goodbye to the Security Council's Integrity, contains the key to understanding everything that has happened since the 1967 war. By allowing Israel to violate international law and settle the occupied territories, the major powers, led by America, effectively created two sets of rules for the behaviour of nations-one for all the nations of the world minus only the Zionist state of Israel and the other exclusively for it. This third volume includes insights Hart gained while acting as the linkman in a secret and exploratory dialogue between PLO chairman Yasser Arafat and Israel's Shimon Peres who, at the time, was the leader of the main Conflict Without End, Volume III of Hart's multi-volume work, ZIONISM, THE REAL ENEMY OF THE JEWS takes the story from the 1967 war and the creation of Greater Israel to the present and the question: Will President Obama be allowed to deliver an acceptable amount of justice for the Palestinians in order to achieve peace for all, and, if he can't deliver, is a final round of Zionist ethnic cleansing inevitable? Chapter 2, The Liberty Affair – "Pure Murder" on a "Great Day", tells the incredible but true story of Israel's deliberate attack on the American spy ship and how the truth was covered up, allowing the Israelis to get away with the cold-blooded murder of American service personnel. Chapter 3. Goodbye to the Security Council's Integrity, contains the key to understanding everything that has happened since the 1967 war. By allowing Israel to violate international law and settle the occupied territories, the major powers, led by America, effectively created two sets of rules for the behaviour of nations-one for all the nations of the world minus only the Zionist state of Israel and the other exclusively for it.

Prophets Outcast Feb 26 2020 Includes writings by Isaac Deutscher, Sigmund Freud, Martin Buber, Albert Einstein, Hannah Arendt, Leon Trotsky, I. F. Stone, Uri Avnery, Noam Chomsky, Judith Butler, and others.

The Absence of Peace Jan 27 2020 Suicide bombings continue remorselessly to traumatize the Israeli people as the world's media, on each occasion, bring dramatic pictures of the terror and carnage caused. Much less wellknown, and very little publicized, however, is the daily fear, poverty and anger of West Bank and Gaza Palestinians as a result of the continuing presence of over 300,000 Jewish settlers in their midst, as well as the ongoing Israeli military occupation, economic sanctions and constant retaliations. This is what this book is about. Equally important, Nicholas Guyatt examines the Oslo Peace Accords which, when the Israeli Government and the PLO signed them in 1993, raised such high hopes of a permanent settlement of the Palestine Question. He shows the problem to be not just incomplete implementation of the Accords (although Israel is frequently procrastinating), but their very conception. There can be no economically viable Palestinian state, nor one which can command the respect and enthusiasm of Palestinians, so long as its territory remains fragmented by a growing number of Jewish settlements, the Palestinian Authority becomes a surrogate policeman for the Israeli government, and the Palestinian enclaves are dependent on Israel for access to the outside world, for electrical power, for jobs and so many of the other necessities of life. This book needs to be read by all those who are puzzled by why the Oslo process, from which so much was expected, now seems to be making so little contribution to peace on the ground, and who wish to understand whether there may be alternatives holding out more hope of a permanent and just settlement of the Israeli-Palestinian conflict.

The Oxford Handbook of Israeli Politics and Society Sep 15 2021 "Few countries receive as much attention as Israel and are at the same time as misunderstood. The Oxford Handbook of Israeli Politics and Society brings together leading Israeli and international figures to offer the most wide-ranging treatment available of an intriguing country. It serves as a comprehensive reference for the growing field of Israel studies and is also a significant resource for students and scholars of comparative politics, recognizing that in many ways Israel is not unique, but rather a test case of democracy in deeply divided societies and states engaged in intense conflict. The handbook presents an overview of the historical development of Israeli democracy through chapters examining the country's history, contemporary society, political institutions, international relations, and most pressing political issues. It outlines the most relevant developments over time while not shying away from the strife both in and around Israel. It presents opposed narratives in full force, enabling readers to make their own judgments"--

A History of Modern Palestine Feb 08 2021 An update of the history of Palestine since the 1800s, which includes recent dramatic events.

The Israeli Peace Movement Nov 17 2021 This book discusses the predicament of the Israeli peace movement, which, paradoxically, following the launching of the Oslo peace process between Israel and the Palestinians in 1993, experienced a prolonged, fatal decline in membership, activity, political significance, and media visibility. After presenting the regional and national background to the launching of the peace process and a short history of Israeli peace activism, the book focuses on external and internal processes and interactions experienced by the peace movement, after some basic postulates of its agenda were actually, although never explicitly, embraced by the Rabin government. The book concludes that, despite its organizational decline and the zero credit given to it by the policy makers, in retrospect it appears that the movement contributed significantly to the integration of new ideas for possible solutions to the Middle East conflict in the Israeli mainstream political discourse.
