Improving the First Year of College Jul 05 2020 The first year of college represents an enormous milestone in students' lives. Whether attending a four-year or two-year institution of higher education, living on campus or at home, or enrolled in a highly selective school or a college with an open-admissions policy, students are challenged in unique and demanding ways during their first year. Although many students rise to the challenges they face, for some the demands are too great. Retention rates beyond the first year are disappointing: one third of first-year students seriously consider leaving college during their first term, and ultimately one half of all students who start college complete it. What are the factors that impact students during their first year? How can the academic and social experiences of first-year students be optimized? What can we do to improve retention rates to maximize the number of students who complete college? *Improving the First Year of College* employs a variety of perspectives from leading researchers and student-service providers to address these questions and examine the first year of college. This volume also highlights the development of learning communities and coaching, as well as how technology impacts students' first year. Perhaps most important, the book provides examples of "best practices," as determined through research by leaders in the field, to permit educators to draw on their experiences.

A Voice That Could Stir an Army Jan 11 2021 A sharecropper, a warrior, and a truth-telling prophet, Fannie Lou Hamer (1917–1977) stands as a powerful symbol not only of the 1960s black freedom movement, but also of the enduring human struggle against oppression. *A Voice That Could Stir an Army* is a rhetorical biography that tells the story of Hamer's life by focusing on how she employed symbols— images, words, and even material objects such as the ballot, food, and clothing—to construct persuasive public personae, to influence audiences, and to effect social change. Drawing upon dozens of newly

recovered Hamer texts and recent interviews with Hamer's friends, family, and fellow activists, Maegan Parker Brooks moves chronologically through Hamer's life. Brooks recounts Hamer's early influences, her intersection with the black freedom movement, and her rise to prominence at the 1964 Democratic National Convention. Brooks also considers Hamer's lesser-known contributions to the fight against poverty and to feminist politics before analyzing how Hamer is remembered posthumously. The book concludes by emphasizing what remains rhetorical about Hamer's biography, using the 2012 statue and museum dedication in Hamer's hometown of Ruleville, Mississippi, to examine the larger social, political, and historiographical implications of her legacy. The sustained consideration of Hamer's wide-ranging use of symbols and the reconstruction of her legacy provided within the pages of *A Voice That Could Stir an Army* enrich understanding of this key historical figure. This book also demonstrates how rhetorical analysis complements historical reconstruction to explain the dynamics of how social movements actually operate.

The Speeches of Fannie Lou Hamer Oct 08 2020 Most people who have heard of Fannie Lou Hamer (1917-1977) are aware of the impassioned testimony that this Mississippi sharecropper and civil rights activist delivered at the 1964 Democratic National Convention. Far fewer people are familiar with the speeches Hamer delivered at the 1968 and 1972 conventions, to say nothing of addresses she gave closer to home, or with Malcolm X in Harlem, or even at the founding of the National Women's Political Caucus. Until now, dozens of Hamer's speeches have been buried in archival collections and in the basements of movement veterans. After years of combing library archives, government documents, and private collections across the country, Maegan Parker Brooks and Davis W. Houck have selected twenty-one of Hamer's most important speeches and testimonies. As the first volume to exclusively showcase Hamer's talents as an orator, this book includes speeches from the better part of her fifteen-year activist career delivered in response to occasions as distinct as a Vietnam War Moratorium Rally in Berkeley, California, and a summons to testify in a Mississippi courtroom. Brooks and Houck have coupled these heretofore unpublished speeches and testimonies with brief critical descriptions that place Hamer's words in context. The editors also include the last full-length oral history interview Hamer granted, a recent oral history interview Brooks conducted with Hamer's daughter, as well as a bibliography of additional primary and secondary sources. *The Speeches of Fannie Lou Hamer* demonstrates that there is still much to learn about and from this valiant black freedom movement activist.

Communicative Musicality Nov 08 2020 *Communicative Musicality* explores the intrinsic musical nature of human interaction. The theory of communicative musicality was developed from groundbreaking studies showing how in mother/infant communication there exist noticeable patterns of timing, pulse, voice timbre, and gesture. Without intending to, the exchange between a mother and her infant follow many of the rules of musical performance, including rhythm and timing. This is the first book to be devoted to this topic. In a collection of cutting-edge chapters, encompassing brain science, human evolution, psychology, acoustics and music performance, it focuses on the rhythm and sympathy of musical expression in human communication from infancy. It demonstrates how speaking and moving in rhythmic musical ways is the essential foundation for all forms of communication, even the most refined and technically elaborated, just as it is for parenting, good teaching, creative work in the arts, and therapy to help handicapped or emotionally distressed persons. A landmark in the literature, *Communicative Musicality* is a valuable text for all those in the fields of developmental, educational, and music psychology, as well as those in the field of music therapy.

The Shadow Scholar May 15 2021 “[A] stunning tale of academic fraud . . . shocking and compelling.”-The Washington Post Dave Tomar wrote term papers for a living. Technically, the papers were “study guides,” and the companies he wrote for-there are quite a few-are completely aboveboard and easily found with a quick web search. For as little as ten dollars a page, these paper mills provide a custom essay, written to the specifics of any course assignment. During Tomar's career as an academic surrogate, he wrote made-to-order papers for everything from introductory college courses to Ph.D. dissertations. There was never a shortage of demand for his services. *The Shadow Scholar* is the story of this dubious but all-too-common career. In turns shocking, absurd, and ultimately sobering, Tomar explores not merely his own misdeeds but the bureaucratic and cash-hungry colleges, lazy students, and even misguided parents who help make it all possible.

The Book in the United States Today Feb 21 2022 This volume is based on a special issue of "Logos "that grew out of a meeting of an international group of book trade hands. It is the first broad-scale account and assessment of the commercial aspects of the U.S. book trade from publisher to library by way of book dealers and wholesalers. Two major phenomena, concentration into larger units and concern about the electronic future, are recurring themes in this collection.

Concentration characterizes bookselling as much as publishing, and the electronic future preoccupies librarians even more than publishers. Chapters and contributors to "The Book in the United States Today" include: "A Religious Country Reflected in its Publishing Industry" by Werner Mark Linz; "Children's Books: 500 Million a Year" by Charles E. Gates; "U.S. School Publishing" by Cameron S. Moseley; "The Paperback Conquest of America" by Betty Ballantine; "Medical Publishing in the U.S." by Eric J. Newman; "The U.S. College Textbook" by Robert R. Worth; "The American University Library" by Hendrik Edelman; and "Between Academe and the Marketplace: University Presses Face the 21st Century" by Naomi B. Pascal. In the postscript, Gordon Graham discusses one of the defects of the U.S. book industry today, a shortage of collective memory. The common ground of the industry, he writes, is seen in securing legal rights and political advantage, not in any ideological attachment to the shared product, its history or its culture. "The Book in the United States Today" provides important information for publishers, librarians, authors, and book sellers.

Fannie Lou Hamer Jun 03 2020 In 1964, Fannie Lou Hamer delivered a heart-wrenching testimony before the Democratic National Convention's (DNC) Credentials Committee. In this speech, Hamer represented both the concerns of the Mississippi Freedom Democratic Party (MFDP) and the limits of American democracy when she proclaimed: "I question America. Is this the land of the free and the home of the brave where we have to sleep with our telephones off the hooks because our lives be threatened daily? Because we want to live as decent human beings, in America?" This is the speech that sent President Lyndon B. Johnson into a state of outright panic, as he diverted the media's attention away from Hamer's stinging indictment of the nation he led. This is the speech that left most Credentials Committee members in tears, forced Johnson to negotiate with the MFDP, and compelled the Democratic Party to vow they would never again seat a segregated delegation. And this is the speech that television networks, made wise to Johnson's diversionary tactics, replayed during their evening programs, thereby bringing Fannie Lou Hamer into the living rooms of Americans across the nation. As significant as the 1964 DNC speech is, this book will

underscore that Hamer's testimony was but one moment within a remarkable life that spanned fifty-nine tumultuous years in the history of American race relations. For the first forty-four years of her life, Hamer lived on sharecropping plantations, all the while learning life lessons from her family, the Black Baptist religious tradition, and from the oppressive white supremacist mores surrounding her. Once Hamer's life path intersected with the mid-century Civil Rights Movement, she spent fifteen years (1962-1977) traveling from the South to the North—and even to the West Coast of Africa—advocating civil rights, economic justice, and interracial cooperation. Hamer shared the platform with Martin Luther King, Jr. and Malcolm X, who introduced her to an audience in Harlem as “the country's number one freedom fighting woman.” This accessible biography will enrich public memory about Hamer by telling not only the significant story of her riveting testimony, but also by recounting a life filled with triumphs, tragedies, and accompanying lessons for contemporary audiences.
