Sign of Life Sep 20 2021 Just after noon on a spring day in 2006, aspiring singer songwriter Hilary Williams and her sister Holly – the granddaughters of country legend Hank Williams and daughters of country music star Hank Williams Jr. – were driving through Mississippi down a rural stretch of Route 61 on their way to their grandfather's funeral. Suddenly, the front wheel of the truck became caught in one of the many deep ruts and gravel lining the road, causing the vehicle and its passengers to flip over several times, crushing steel and breaking fragile bones as it crashed. Holly was lucky. She only suffered a broken wrist and cuts and bruises. But when the Jaws of Life finally pried Hilary's shattered body free of the wreckage, she was in shock and barely breathing. She had suffered two broken legs, several broken ribs, a ruptured colon, and bruised lungs. Her back, collarbone, tailbone, pelvis, and right femur were fractured. Her hips were crushed. It had taken nearly 30 minutes for an ambulance to arrive, and she had already lost a large amount of blood. Then, as EMTs scrambled to stabilize her in the middle of a muddy Mississippi field, Hilary Williams died. But that was only the beginning. This is a story of struggle and pain. But more so, it is a story of second chances, of love and resolve and recovery. When she was pulled back into life, Hilary's world changed. It was the beginning of a long, courageous, and inspiring journey during which she would undergo twenty-three surgeries and years of therapy. Along the way, with her family at her side, Hilary has learned the meaning of strength, not only the strength to survive, but the strength to live with the legend, the talent, the burden, and the privilege of her place in country music's most famous family.

Love and Toil Jun 05 2020 The feisty warm-hearted "mum" has long figured as a symbol of the working class in Britain, yet working-class history has emphasized male organizations such as clubs, unions, or political parties. Investigating a different dimension of social history, *Love and Toil* focuses on motherhood among the London poor in the late Victorian and Edwardian years, and on the cultures, communities, and ties with husbands and children that women created. Mothers' skills in managing the family budget, earning income, and caring for their children were critical in protecting households from the worst hardships of industrial capitalism, yet poverty or the threat of it molded intimate relationships and left its imprint on personalities. This book is also a case study demonstrating the larger argument that the concept of "motherhood" is more socially and historically constructed than biologically determined. Shaky household economics, pressure toward respectability, the close proximity of neighbors, the precariousness of infant and child life, and little chance of better lives for their children shaped the work and emotions of motherhood much more than did the biological experiences of pregnancy, birth, and lactation. This beautifully written book, embellished with Cockney slang and music hall songs, addresses fascinating questions in the fields of women's studies, labor history, social policy, and family history.

Seventh Generation Earth Ethics Jun 25 2019 Wisconsin's rich tradition of sustainability rightfully includes its First Americans, who along with Aldo Leopold, John Muir, and Gaylord Nelson shaped its landscape and informed its "earth ethics." This collection of Native biographies, one from each of the twelve Indian nations of Wisconsin, introduces the reader to some of the most important figures in Native sustainability: from anti-mining activists like Walt Bresette (Red Cliff Ojibwe) and Hillary Waukau (Menominee) to treaty rights advocates like James Schlender (Lac Courte Oreille Ojibwe), artists like Truman Lowe (Ho-Chunk), and educators like Dorothy "Dot" Davids (Stockbridge-Munsee Community Band of Mohican Indians), along with tribal genealogists, land stewards, and preservers of language and culture. Each of the biographies speaks to traditional ecological values and cultural sensibilities, highlighting men and women who helped to sustain and nurture their nations in the past and present. The Native people whose lives are depicted in *Seventh Generation Earth Ethics* understood the cultural gravity that kept their people rooted to their ancestral lands and acted in ways that ensured the growth and success of future generations. In this way they honor the Ojibwe Seventh Generation philosophy, which cautions decision makers to consider how their actions will affect seven generations in the future—some 240 years.

Disney Channel Tween Programming Nov 10 2020 Much has been written about the Walt Disney Company's productions, but the focus has largely been on animation and feature film created by Disney. In this essay collection, the attention is turned to The Disney Channel and the programs it presents for a largely tween audience. Since its emergence as a market category in the 1980s, the tween demographic has commanded purchasing power and cultural influence, and the impressionability and social development of the age group makes it an important range of people to study. Presenting both a groundbreaking view of The Disney Channel's programming by the numbers and a deep focus on many of the best-known programs and characters of the 2000s--shows like *The Wizards of Waverly Place*, *That's So Raven* and *Hannah Montana*--this collection asks the simple questions, "What does The Disney Channel Universe look and sound like? Who are the stories about? Who matters on The Disney Channel?"

The Swallows' Flight Jan 01 2020 From the Costa Award-winning author Hilary McKay, comes a moving World War II story of family and friendship on opposite sides of a devastating conflict. *The Swallows' Flight* is the stunning companion novel to *The Skylarks' War*. 'It's not necessary to have read *The Skylarks' War* (though many beloved characters make reappearances) to be instantly and joyfully lost in this evocative, moving novel, showing McKay at the very top of her game.' – Imogen Russell-Williams, *The Guardian* 'Funny, poignant, wise and emotional. Full of achingly real characters (and also an excellent dog) . . . I eked out the final pages, not wanting it to end.' – Fiona Noble, *The Bookseller* Erik and Hans are German boys. Ruby and Kate are English girls. They grow up in worlds that would never meet, until war tumbles their lives together. Then one September afternoon there are choices to be made.

How is courage lost, and found? Who is really the enemy? And what does friendship truly mean, in the middle of a war? Meanwhile Rupert and Clarry work secretly for peace – and a brighter future for them all a resounding success. . . McKay refuses to dumb down the history, writing with such clarity and understanding that you can't fail to be caught up in the cares of her loveable cast.' – Alex O'Connell, The Times Book of the Week 'McKay is a glutinously atmospheric writer, and this dense, action-packed saga – written during lockdown – is every bit as satisfying as its predecessor.' Emily Bearn, The Telegraph 'Separately and together, The Skylarks' War and The Swallows' Flight are pinnacles of children's literature.' –Nicolette Jones, The Sunday Times Book of the Week 'Meticulously researched, intelligent, warm and witty — this is McKay at her peerless peak.' Sally Morris, The Daily Mail
Feminine Sentences Feb 11 2021 This new book integrates material drawn from a variety of sources - feminist theory, cultural and literary analysis, sociology and art history - in an original discussion of women's relationship to modern and post-modern culture. The essays in the book challenge the continuing separation of sociological from textual analysis in cultural (and feminist) theory and enquiry. They address critically the question of women's writing, exploring the idea that women may begin to define their own lives and construct their identities in a patriarchal culture through the very process of writing. They also present a cogent defence of a feminist cultural politics, including a politics of the body.

Hilary of Poitiers on the Trinity Feb 23 2022 Hilary of Poitiers (c300-368), Bishop and Theologian, was instrumental in shaping the development of pro-Nicene theology in the West. Carl Beckwith engages the extensive scholarship on the fourth-century Trinitarian debates and brings new light on the structure and chronology of Hilary's monumental *De Trinitate*. There is a broad scholarly consensus that Hilary combined two separate theological works, a treatise on faith (*De Fide*) and a treatise against the 'Arians' (*Adversus Arianos*), to create *De Trinitate*. In spite of this the question of when and why Hilary performed this task has largely remained unanswered. Beckwith addresses this puzzle, situating Hilary's *De Trinitate* in its historical and theological context and offering a close reading of his text. He demonstrates that Hilary made significant revisions to the early books of his treatise; revisions that he attempted to conceal from his readers in order to give the impression of a unified work on the Trinity. Beckwith argues that *De Fide* was written in 356 following Hilary's condemnation at the synod of Béziers and prior to receiving a decision on his exile from the Emperor. When Hilary arrived in exile, he wrote a second work, *Adversus Arianos*. Following the synod of Sirmium in 357 and his collaboration with Basil of Ancyra in early 358, Hilary recast his efforts and began to write *De Trinitate*. He decided to incorporate his two earlier works, *De Fide* and *Adversus Arianos*, into this project. Toward that end, he returned to his earlier works and drastically revised their content by adding new prefaces and new theological and exegetical material to reflect his mature pro-Nicene theology. Beckwith provides a compelling case for the nature of these radical revisions, crucial textual alterations that have never before been acknowledged in the scholarship on *De Trinitate*.

The Mirror & the Light Nov 30 2019 The brilliant #1 New York Times bestseller Named a best book of 2020 by The New York Times, The Washington Post, TIME, The Guardian, and many more With *The Mirror & the Light*, Hilary Mantel brings to a triumphant close the trilogy she began with her peerless, Booker Prize-winning novels, *Wolf Hall* and *Bring Up the Bodies*. She traces the final years of Thomas Cromwell, the boy from nowhere who climbs to the heights of power, offering a defining portrait of predator and prey, of a ferocious contest between present and past, between royal will and a common man's vision: of a modern nation making itself through conflict, passion and courage. The story begins in May 1536: Anne Boleyn is dead, decapitated in the space of a heartbeat by a hired French executioner. As her remains are bundled into oblivion, Cromwell breakfasts with the victors. The blacksmith's son from Putney emerges from the spring's bloodbath to continue his climb to power and wealth, while his formidable master, Henry VIII, settles to short-lived happiness with his third queen, Jane Seymour. Cromwell, a man with only his wits to rely on, has no great family to back him, no private army. Despite rebellion at home, traitors plotting abroad and the threat of invasion testing Henry's regime to the breaking point, Cromwell's robust imagination sees a new country in the mirror of the future. All of England lies at his feet, ripe for innovation and religious reform. But as fortune's wheel turns, Cromwell's enemies are gathering in the shadows. The inevitable question remains: how long can anyone survive under Henry's cruel and capricious gaze? Eagerly awaited and eight years in the making, *The Mirror & the Light* completes Cromwell's journey from self-made man to one of the most feared, influential figures of his time. Portrayed by Mantel with pathos and terrific energy, Cromwell is as complex as he is unforgettable:

a politician and a fixer, a husband and a father, a man who both defied and defined his age.

Wolf Hall Jul 19 2021 In the ruthless arena of King Henry VIII's court, only one man dares to gamble his life to win the king's favor and ascend to the heights of political power England in the 1520s is a heartbeat from disaster. If the king dies without a male heir, the country could be destroyed by civil war. Henry VIII wants to annul his marriage of twenty years, and marry Anne Boleyn. The pope and most of Europe opposes him. The quest for the king's freedom destroys his adviser, the brilliant Cardinal Wolsey, and leaves a power vacuum. Into this impasse steps Thomas Cromwell. Cromwell is a wholly original man, a charmer and a bully, both idealist and opportunist, astute in reading people and a demon of energy: he is also a consummate politician, hardened by his personal losses, implacable in his ambition. But Henry is volatile: one day tender, one day murderous. Cromwell helps him break the opposition, but what will be the price of his triumph? In inimitable style, Hilary Mantel presents a picture of a half-made society on the cusp of change, where individuals fight or embrace their fate with passion and courage. With a vast array of characters, overflowing with incident, the novel re-creates an era when the personal and political are separated by a hairbreadth, where success brings unlimited power but a single failure means death.
