Derived Langlands: Monomial Resolutions Of Admissible Representations Aug 06 2020 The Langlands Programme is one of the most important areas in modern pure mathematics. The importance of this volume lies in its potential to recast many aspects of the programme in an entirely new context. For example, the morphisms in the monomial category of a locally p-adic Lie group have a distributional description, due to Bruhat in his thesis. Admissible representations in the programme are often treated via convolution algebras of distributions and representations of Hecke algebras. The monomial embedding, introduced in this book, elegantly fits together these two uses of distribution theory. The author follows up this application by giving the monomial category treatment of the Bernstein Centre, classified by Deligne-Bernstein-Zelevinsky. This book gives a new categorical setting in which to approach well-known topics. Therefore, the context used to explain examples is often the more generally accessible case of representations of finite general linear groups. For example, Galois base-change and epsilon factors for locally p-adic Lie groups are illustrated by the analogous Shintani descent and Kondo-Gauss sums, respectively. General linear groups of local fields are emphasized. However, since the philosophy of this book is essentially that of homotopy theory and algebraic topology, it includes a short appendix showing how the buildings of Bruhat-Tits, sufficient for the general linear group, may be generalised to the tom Dieck spaces (now known as the Baum-Connes spaces) when G is a locally p-adic Lie group. The purpose of this monograph is to describe a functorial embedding of the category of admissible k-representations of a locally profinite topological group G into the derived category of the additive category of the admissible k-monomial module category. Experts in the Langlands Programme may be interested to learn that when G is a locally p-adic Lie group, the monomial category is closely related to the category of topological modules over a sort of enlarged Hecke algebra with generators corresponding to characters on compact open modulo the centre subgroups of G. Having set up this functorial embedding, how the ingredients of the celebrated Langlands Programme adapt to the context of the derived monomial module category is examined. These include automorphic representations, epsilon factors and L-functions, modular forms, Weil-Deligne representations, Galois base change and Hecke operators.

United Nations General Assembly Resolutions in Our Changing World Mar 25 2022 This thoughtful work by the world's leading authority on the law of United Nations General Assembly Resolutions remains of inestimable value in its assessment of the potential role of these resolutions under the "New World Order." An insider familiar with the institution's complexities, Professor Sloan examines with insight and clarity the new opportunities available to the United Nations in a world released from the stifling restraints of the Cold War. The book includes detailed documentary annexes as well as a bibliography and index. Published under the Transnational Publishers imprint.

Kashmir Dispute, Pakistan and the UN Resolutions Sep 06 2020 It is almost a ritual that the new army chief of Pakistan gives a strong statement against India to assure his people that he is also a brave soldier and is fully prepared to take on India. However, the new army chief of Pakistan, General Qamar Javed Bajwa, in his statement sent two messages. While speaking to his soldiers about line of control violations during a visit to the X Corps Rawalpindi, he said, Each violation of any kind must be responded to with full force in the most effective manner. After assuring his countrymen that he will also be tough with India, he, to the surprise of some, also sent a peace message when he said, The situation at the line of control will hopefully improve soon.

The Resolutions Nov 01 2022 A heart-expanding novel about four Latinx teens who make New Year's resolutions for one another—and the whirlwind of a year that follows. Fans of Erika L. Sánchez and Emery Lord will fall for this story of friendship, identity, and the struggle of finding yourself when all you want is to start over. From hiking trips to four-person birthday parties to never-ending group texts, Jess, Lee, Ryan, and Nora have always been inseparable. But now with senior year on the horizon, they've been growing apart. And so, as always, Jess makes a plan. Reinstating their usual tradition of making resolutions together on New Year's Eve, Jess adds a new twist: instead of making their own resolutions, the four friends assign them to one another—dares like kiss someone you know is wrong for you, find your calling outside your mom's Puerto Rican restaurant, finally learn Spanish, and say yes to everything. But as the year unfolds, Jess, Lee, Ryan, and Nora each test the bonds that hold them together. And amid first loves, heartbreaks, and life-changing decisions, beginning again is never as simple as it seems.

Broken Resolutions Apr 01 2020 LOVE BETWEEN THE LINES Romance has never had a happy ending for librarian Penny Callahan, who could write the book on cheating, heartbreaking liars. So she's made a resolution: no men for the next twelve months. If she can just get through the library's New Year's Eve singles night, she can return home to her pajamas and a good book. But when she finds herself checking out a hot hunk with an irresistible smile, an evening in the stacks becomes a lot more tempting... Reclusive author Jack Williamson never should have trusted his mother. Even though he's trying to avoid being recognized, she guilts him into attending a dating meet-and-greet—where an adorable librarian makes him question his lonely lifestyle. Is this just a fleeting, flirty scene? Or could love be the next chapter for them both?

Promoting Justice, Human Rights and Conflict Resolution through International Law / La promotion de la justice, des droits de l'homme et du règlement des conflits par le droit international Aug 25 2019 This Liber Amicorum is published at the occasion of Judge Lucius Cafilisch's retirement from a distinguished teaching career at the Graduate Institute of International Studies of Geneva, where he served as Professor of International Law for more than three decades, and where he has also held the position of Director. It was written by his colleagues and friends, from the European Court of Human Rights, from universities all around the world, from the Swiss Foreign Affairs Ministry and many other national and international institutions. The Liber Amicorum Lucius Cafilisch covers different fields in which Judge Cafilisch has excelled in his various capacities, as scholar, representative of Switzerland in international conferences, legal adviser of the Swiss Foreign Affairs Ministry, counsel, registrar, arbitrator and judge. This collective work is divided into three main sections. The first section examines questions concerning human rights and international humanitarian law. The second section is devoted to the international law of spaces, including matters regarding the law of the sea, international waterways, Antarctica, and boundary and territorial issues. The third section addresses issues related to the peaceful settlement of disputes, both generally and with regard to any particular means of settlement. The contributions are in both English and French.
