Twenty Thousand Leagues Under the Sea Jan 07 2021 The year 1866 was signalised by a remarkable incident, a mysterious and puzzling phenomenon, which doubtless no one has yet forgotten. Not to mention rumours which agitated the maritime population and excited the public mind, even in the interior of continents, seafaring men were particularly excited. Merchants, common sailors, captains of vessels, skippers, both of Europe and America, naval officers of all countries, and the Governments of several States on the two continents, were deeply interested in the matter. For some time past vessels had been met by "an enormous thing," a long object, spindle-shaped, occasionally phosphorescent, and infinitely larger and more rapid in its movements than a whale. The facts relating to this apparition (entered in various log-books) agreed in most respects as to the shape of the object or creature in question, the untiring rapidity of its movements, its surprising power of locomotion, and the peculiar life with which it seemed endowed. If it was a whale, it surpassed in size all those hitherto classified in science. Taking into consideration the mean of observations made at divers times—rejecting the timid estimate of those who assigned to this object a length of two hundred feet, equally with the exaggerated opinions which set it down as a mile in width and three in length—we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day, if it existed at all. And that it DID exist was an undeniable fact; and, with that tendency which disposes the human mind in favour of the marvellous, we can understand the excitement produced in the entire world by this supernatural apparition. As to classing it in the list of fables, the idea was out of the question. On the 20th of July, 1866, the steamer Governor Higginson, of the Calcutta and Burnach Steam Navigation Company, had met this moving mass five miles off the east coast of Australia. Captain Baker thought at first that he was in the presence of an unknown sandbank; he even prepared to determine its exact position when two columns of water, projected by the mysterious object, shot with a hissing noise a hundred and fifty feet up into the air. Now, unless the sandbank had been submitted to the intermittent eruption of a geyser, the Governor Higginson had to do neither more nor less than with an aquatic mammal, unknown till then, which threw up from its blow-holes columns of water mixed with air and vapour. Similar facts were observed on the 23rd of July in the same year, in the Pacific Ocean, by the Columbus, of the West India and Pacific Steam Navigation Company. But this extraordinary creature could transport itself from one place to another with surprising velocity; as, in an interval of three days, the Governor Higginson and the Columbus had observed it at two different points of the chart, separated by a distance of more than seven hundred nautical leagues.

Handbook of Alien Species in Europe Dec 06 2020 Biological invasions by alien (non-native) species are widely recognized as a significant component of human-caused global environmental change and the second most important cause of biodiversity decline. Alien species threaten many European ecosystems and have serious environmental, economic and health impacts. The

DAISIE (Delivering Alien Invasive Species Inventories for Europe) project has now brought together all available information on alien species in Europe (terrestrial, aquatic and marine) and from all taxa (fungi, plants, animals). Thus for the first time, an overview and assessment of biological invasions in the Pan-European region is finally possible. The Handbook of Alien Species in Europe summarises the major findings of this groundbreaking research and addresses the invasion trends, pathways, and both economic as well as ecological impact for eight major taxonomic groups. Approximately 11.000 alien species recorded in Europe are listed, and fact sheets for 100 of the most invasive alien species are included, each with a distribution map and colour illustration. The book is complemented by a regularly updated internet database providing free additional information. With its highly interdisciplinary approach, DAISIE and its Handbook will be the basis for future scientific investigations as well as management and control of alien invasive species in Europe.

Plautine Trends Oct 24 2019 *Plautine Trends: Studies in Plautine Comedy and its Reception*, a collective volume published as a Festschrift in honour of Prof. D. Raios (University of Ioannina), aims to contribute to the current, intense discussion on Plautine drama and engage with most of the topics which lie at the forefront of recent scholarship on 'literary Plautus'. 13 papers by experts on Roman Comedy address issues concerning a) the structure of Plautine plot in its social, historical and philosophical contexts, b) the interfaces between language and comic plot, and c) plot and language as signs of reception. Participants include (in alphabetical order): A. Augoustakis, R.R. Caston, D.M. Christenson, M. Fontaine, S. Frangoulidis, M. Hanses, E. Karakasis, D. Konstan, K. Kounaki-Philippides, S. Papaioannou, A. Sharrock, N.W. Slater, and J.T. Welsh. The papers of the volume are preceded by an introduction offering a review of the extensive literature on the subject in recent years and setting the volume in its critical context. The preface to the volume is written by R.L. Hunter. The book is intended for students or scholars working on or interested in Plautine Comedy and its reception.

En el trineo de Schopenhauer Jun 24 2022 Ariel Chipman, un profesor de filosofía que ha consagrado su vida a proclamar el imperativo del goce de vivir, se sume en una depresión. Nadine Chipman, su esposa, comienza a estar harta de su marido y se pregunta por qué no serle infiel. Serge Othon Weil, el amigo íntimo de la pareja, afirma haber comprendido que preguntarse por la vida en su totalidad no tiene sentido y rechaza todo atisbo de trascendencia. Y la psiquiatra de Ariel despotrica contra el sentimentalismo. Pero lo que todos ellos han experimentado es ese instante en que nuestra existencia parece vaciarse irremisiblemente de sentido. Y entonces, una avalancha de preguntas nos muestra que el mundo no es tal como lo hemos conocido. Es el momento ínfimo en que nos sabemos seres abocados a la muerte...

Signs of the Apostles Nov 05 2020 This short work is written with clarity and vigour. It carefully distinguished some kinds of charismatically-inclined Christians from others. It poses questions with which every Church member is faced. Chantry's answers tally with those of the greatest leaders of the Church during the Christian centuries. From Psalm 85 he outlines the true character of revival, and closes the book with material drawn from the Great Awakening of the 18th century.

The Heritage Crusade and the Spoils of History Mar 29 2020 Heritage has burgeoned over the past quarter of a century from a small élite preoccupation into a major popular crusade. Everything from Disneyland to the Holocaust Museum, from the Balkan wars to the Northern Irish Troubles, from Elvis memorabilia to the Elgin Marbles bears the marks of the cult of heritage. In this acclaimed book David Lowenthal explains the rise of this new obsession with the past and examines its power for both good and evil. Resilience in Ecology and Urban Design Apr 29 2020 The contributors to this volume propose strategies of urgent and vital importance that aim to make today's urban environments more resilient. Resilience, the ability of complex systems to adapt to changing conditions, is a key frontier in ecological research and is especially relevant in creative urban design, as urban areas exemplify complex systems. With something approaching half of the world's population now residing in coastal urban zones, many of which are vulnerable both to floods originating inland and rising sea levels, making urban areas more robust in the face of environmental threats must be a policy ambition of the highest priority. The complexity of urban areas results from their spatial heterogeneity, their intertwined material and energy fluxes, and the integration of social and natural processes. All of these features can be altered by intentional planning and design. The complex, integrated suite of urban structures and processes together affect the adaptive resilience of urban systems, but also presupposes that planners can intervene in positive ways. As examples accumulate of linkage between sustainability and building/landscape design, such as the Shanghai Chemical Industrial Park and Toronto's Lower Don River area, this book unites the ideas, data, and insights of ecologists and related scientists with those of urban designers. It aims to integrate a formerly atomized dialog to help both disciplines promote urban resilience.

Missouri Landscapes Aug 02 2020 "In this magnificent book, Oliver Schuchard provides more than sixty-five exquisite black-and-white photographs spanning his thirty-eight years of photography. In addition, he explains the aesthetic rationale and techniques he used in order to produce these photographs, emphasizing the profound differences between, yet necessary interdependence of, craft and content. Although Schuchard believes that craft is important, he maintains that the idea behind the photograph and the emotional content of the image are equally vital and are, in fact, functions of one another. The author also shares components of his life experience that he believes helped shape his development as an artist and a teacher. He chose the splendid photographs included in this book from among nearly 5,000 negatives that had been exposed all over the world, from Missouri to Maine, California, Alaska, Colorado, France, Newfoundland, and Hawaii, among many other locations. Approximately 250 negatives survived the initial review, and each of those was printed before a final decision was made on which photographs were to be featured in the book. The final choices are representative of Schuchard's work and serve to substantiate his belief that craft, concept, and self must be fully understood and carefully melded for a good photograph to occur. This amazing work by award-winning photographer Oliver Schuchard will be treasured by professional and amateur photographers alike, as well as by anyone who simply enjoys superb photography."--Publishers website.

The Automotive Industry and European Integration Jul 13 2021 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Innovation and Transition in Law: Experiences and Theoretical Settings Oct 16 2021 This book features a discussion on the modernisation of law and legal change, focusing on the key concepts of innovation" and "transition". These concepts both appear to be relevant and poorly defined in contemporary legal science. A critical reflection on the heuristic value of these categories seems appropriate, particularly considering their dyadic value. While innovation is increasingly appearing in the present day as being the category in which one looks at the modernisation of law, the concept of transition also seems to be the privileged place of occurrence for such dynamics. This group of Italian and Brazilian scholars contributing to this volume intends to investigate such problems through an interdisciplinary prism. It includes points of view both internal to legal studies - such as the history of law, theory of law, constitutional law, private law and commercial law - and external, such as political philosophy and history of justice and political institutions.

The Car Show Jul 25 2022 This e-book details the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with "motor" referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

El perfil humano y profesional de los emprendedores digitales Jun 12 2021 Este libro recoge las entrevistas realizadas a los principales líderes del mundo digital con el fin de humanizarlos y permitir que otros tantos jóvenes indecisos los puedan tomar como modelos reales en los que inspirarse y motivarse para lanzar sus empresas digitales. Dvoretsky's Analytical Manual Sep 03 2020 The Second Edition of Another Dvoretsky Classic! It is very important for the practical player to train his or her ability, understand when to rely on intuition, rules of thumb and more general positional considerations, when to try to solve problems by calculating variations to the end and how to manage time to avoid time pressure. With these goals in mind, the second edition of Dvoretsky's Analytical Manual delivers excellent, high quality training materials and many exercises. Here what critics had to say about the First Edition: "Very good stuff! ... There is a shocking amount of rich material in this book ... Dvoretsky's Analytical Manual is a magnificent piece of work ... It gets my highest recommendation for those 2200 and above." - From Jeremy Silman's review at JeremySilman.com "Established Dvoretsky fans will definitely enjoy this volume; it might even be his best to date." - From the review by Sean Marsh at MarshTowers.com. "Dvoretsky's Analytical Manual's high-octane, excellent instructional material is nicely enhanced by the author's erudition and wit ... A true gem!" Grandmaster Lev Albut

Shakespearean Futures Jul 01 2020 Casting is the process by which directors assign parts to actors, creating the idea of the character for the audience. Casting is how we rehearse change, as we come to see an expanded repertoire of the kinds of bodies that are selected to play the lead, the hero, and the villain. This Element focuses on the casting in productions of Shakespeare from 2017-2020 to demonstrate how casting functions affectively and cognitively to reimagine who can be what. The central argument is that directors are using casting as the central mode of meaning-making in productions of Shakespeare.

The Cambridge Companion to Modern Japanese Culture Jan 27 2020 This Companion provides a comprehensive overview of

the influences that have shaped modern-day Japan. Spanning one and a half centuries from the Meiji Restoration in 1868 to the beginning of the twenty-first century, this volume covers topics such as technology, food, nationalism and rise of anime and manga in the visual arts. The Cambridge Companion to Modern Japanese Culture traces the cultural transformation that took place over the course of the twentieth century, and paints a picture of a nation rich in cultural diversity. With contributions from some of the most prominent scholars in the field, The Cambridge Companion to Modern Japanese Culture is an authoritative introduction to this subject.

The Danish Girl Jun 19 2019 Starring Academy Award-winner Eddie Redmayne and directed by Academy Award-winner Tom Hooper, this major motion picture portrays an unforgettable celebration of love. It starts with a question, a simple favour asked by a wife of her husband, setting off a transformation neither can anticipate. Einar Wegener and his American wife Greta Waud have been married for six years, but are yet to have a child. Both painters, they live a life of bohemian languor in Copenhagen until one day their lives are irreversibly altered. The Danish Girl eloquently shows the intimacy that defines a marriage and the nearly forgotten story of the love between a man who discovers that he is, in fact, a woman, and his wife who would sacrifice anything for him. Set against the glitz and decadence of 1920s Copenhagen, Paris and Dresden, and inspired by a true story, The Danish Girl is about one of the most passionate and unusual marriages of the twentieth century. 'a story of true love, suffering and sacrifice' - Sunday Telegraph
