*800 Views of Airports May 05 2020 Peter Fischli (b. 1952) and David Weiss (19462012) were Switzerlands most renowned artistic duo. Executed in a variety of media, including sculpture, film and photography, their work playfully ignores the distinction between high and low art. The duo is perhaps best known for the 1987 film The Way Things Go, in which an improbable chain of events unfolds involving household objects and detritus in their studio. In 1988, Fischli and Weiss began working on an ongoing series of airport photographs. At first glance, the images appear commonplace, almost like tourist photographs. They focus on the banal side of air travel: the fuel vehicles, the baggage trucks, the daily routine of the airport worker. These carefully composed images are strangely placid and restful, without any of the noise and anxiety commonly associated with airports. This legendary series, comprising some 800 photographs, is published here in its complete form for the first time.*

*Violence Against Women and Girls Nov 30 2019 This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators (male and female), risk and protective factors for both victims and perpetrators, and interventions to address violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against women in South Asia.*

*Narrative Mechanics Mar 03 2020 What do stories in games have in common with political narratives? This book identifies narrative strategies as mechanisms for meaning and manipulation in games and real life. It shows that the narrative mechanics so clearly identifiable in games are increasingly used (and abused) in politics and social life. They have »many faces«, displays and interfaces. They occur as texts, recipes, stories, dramas in three acts, movies, videos, tweets, journeys of heroes, but also as rewarding stories in games and as narratives in society - such as a career from rags to riches, the concept of modernity or market economy. Below their surface, however, narrative mechanics are a particular type of motivational design - of game mechanics.*

*Hip-Hop, Art, and Visual Culture Sep 20 2021 Visual art has been tied to hip-hop culture since its emergence in the 1970s. Commentary on these initial connections often emphasizes the importance of graffiti and fashion*

during hip-hop's earliest days. Forty years later, hip-hop music has grown into a billion-dollar global industry, and its influence on visual art and society has also expanded. This book-length printed edition of *Arts* collects essays by scholars who explore this evolving influence through their work in art education, cultural theory, and visual culture studies. The topics covered by these authors include discussions on identity and cultural appropriation, equity and access as represented in select works of art, creativity and copyright in digital media, and the use of fine art tropes within the sociocultural history of hip-hop. As a collected volume, these essays make potentially important contributions to broadening the narrative on art education and hip-hop beyond the topics of graffiti, fashion, and the use of cyphers in educational contexts.

*Alpha Boys School* Jul 27 2019 Facing a life of poverty, neglect, abandonment and even homelessness, young Jamaican boys are placed in a disciplinarian Catholic boarding school. With a rigorous musical training program overseen by an eccentric jazz-loving nun, the young virtuoso graduates of Alpha Boys' School went on to change the shape of music forever. It's the 1950s in Jamaica and a musical revolution is brewing. People all over Kingston dance nightly to vast outdoor sound systems blasting American rhythm and blues records across the shanty towns. In the hotels and theaters big bands are playing jazz and calypso. Street musicians are playing home-grown folk music called mento. Out of this musical stew, Jamaica will soon birth a dance music all of its own, a sound that will conquer the globe. Starting with ska in the early 1960s, followed by rocksteady, eventually arriving at reggae in 1969, a group of virtuoso graduates of a Roman Catholic boarding school spearhead a musical and cultural revolution that still reverberates around the world over half a century later. The Sisters of Mercy nuns at Alpha provided a home alongside industrial trades apprenticeships and religious indoctrination. One in particular, Sister Mary Ignatius, dedicated 64 years of her life to running the school's music program. Her deep appreciation of jazz and her sense of fun endeared her to the boys in the band, inspiring them to attain greatness. From early Jamaican jazz giants like Joe Harriott and Dizzy Reece to the greatest ska band of all time, The Skatalites, and some of reggae's most inspirational artists such as Cedric Brooks, Johnny Osbourne, Leroy Smart and Yellowman, the Alpha story is the untold history of Jamaican music. Join Heather Augustyn and Adam Reeves as they delve into the history of this remarkable institution and reveal the life and works of 47 of the greatest Alpha boys. The culmination of many combined years of work, using musicians' personal recollections and a wealth of rarely seen photographs, *Alpha Boys' School: Cradle of Jamaican Music* will take you to the heart of the Jamaica music story. Whether you are a lover of original ska and rocksteady, roots, dub, dancehall and beyond, these stories will take you deeper into the music. *Let's Go to Hell Nov 10 2020 The Butthole Surfers remain one of the most enigmatic bands in the history of rock music. Most of their records have no information of any kind, and often with the suggestion that you play them at 69 rpm.... They lived like nomads through much of the 1980s, and built their reputation upon tours that never ended, and shows that resembled hedonistic acid tests. They left a heap of former band members in their wake, and have often alienated as many fans as they've attracted. Here for the first time is the complete story of one of the most controversial and dangerous bands to have emerged from the ashes of the punk rock movement. 'Let's Go to Hell' compiles the scattered memories into the first comprehensive overview of the band. Featuring exclusive interviews, tons of rare and unpublished photographs, and analysis of the band's vast recorded (and unrecorded) efforts, 'Let's Go to Hell' finally tells the story that was thought (and often hoped) would never be told...*
