The London Cabbie's Quiz Book May 26 2022 Pay a visit to London and a black mini cab will probably be one the first things you will see. The London taxi drivers are almost as famous as the black cabs in which they drive, this is mainly due to their in-depth knowledge of London and ability in taking their occupants to their desired destination amid the congestion and the chaos that you often find when travelling through London's streets. London taxi drivers go through stringent training to obtain their licence, they need to pass "The Knowledge", a test which is amongst the hardest to pass in the world, and has been described as 'like having an atlas of London implanted into your brain'. The test requires you to master no fewer than 320 basic routes, all of the 25,000 streets that are scattered within the basic routes and approximately 20,000 landmarks and places of public interest that are located within a six-mile radius of Charing Cross. This book breaks the test down into a series of head-scratching questions and features enough trivia about the capital to surprise even born and bred Londoners. It's the perfect gift for anyone who thinks they know London inside-out, or wants to learn more!

The Leader in Me Dec 29 2019 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Of Mice and Men Sep 25 2019 Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.

The Art of Public Speaking Aug 24 2019 Lucas' "The Art of Public Speaking" is the leading public speaking textbook in the field. Communication Research: Asking Questions, Finding Answers Mar 12 2021 Communication Research: Asking Questions, Finding Answers covers basic research issues and processes, both quantitative and qualitative, appropriate for communication students with little or no previous research methods experience. The text's guiding principle is that methodological choices are made from one's research questions or hypotheses. This avoids the pitfall in which students learn one methodology or one methodological skill and then force that method to answer all types of questions. Instead of working with one methodology to answer all types of questions, students come away understanding a variety of methods and how to apply them appropriately.

Teaching Music Appreciation Online Jun 14 2021 In this book, readers will learn practical tips and strategies to teach music appreciation online. As online education is a growing field, an increasing number of teachers trained in traditional/live methods find themselves now teaching online and potentially without mentors to assist them. Students are also changing, seeking highly engaged, relevant, and interactive learning opportunities that connect to their lives. Here, readers will find helpful guidance in planning curriculum, integrating multimedia assets, designing forum discussions, developing assignments, preparing rubrics, engaging in forum discussions, preparing, managing, and teaching, the course, providing feedback and grading, and following up with struggling and challenging students. The book can serve as a resource to those already teaching music appreciation online or as a comprehensive guide to those new to the field. Additionally, it may serve as a resource to instructors in other disciplines who seek to shift live-courses to the online format, as well as music appreciation instructors who would like to integrate digital or online components into traditional face-to-face courses. The book is organized into five major sections, designed to guide the novice online educator in depth while also appealing to the seasoned veteran through the ability to review each section as a stand-alone resource. Although some readers will desire to read from cover to cover, they will also be able to move in a non-linear manner from chapter to chapter, using chapters in modular form, in order to benefit from the sections that most apply to them at any given time.
