50 Group Exercises in a Circle Sep 20 2019 This book was written for group conductors, trainers and therapists who work with groups. This book can be used by veterans and new trainers alike. This is a guide to help you plan and implement workshops while building group dynamics. This book is a stellar collection of 50 different games, exercises and activities, with many variations, that all work well in a circle. The book is here to help you plan well thought out and properly structured activities and productive rehearsals and workshops. You'll find here activities that support new groups with introductions, ice-breakers, physical and voice warm-ups, to deeper activities that build energy in the room, encouraging focus, playfulness, trust-building and even closer connections between participants. There are also sections on improvisation. Each activity is clearly broken down into several components, starting with the objectives, time allotment, supplies and preparation before the exercise, to a step by step guide for how to teach each exercise with precise details and explanations, and finishes with a reflective conversational piece. Throughout the book there are spaces available for the reader to write their own reflections and learning and the ability to tweak and change the activity to meet their own personal needs. *Participatory Workshops* Jul 23 2022 Making participation real requires workshops, training and learning that are themselves participatory. Tools for Project Management, Workshops and Consulting Oct 22 2019 "This book is of the kind you always wanted but didn't think would or could ever exist: the universal field theory of problem solving." Tom Sommerlatte Typically today's tasks in management and consulting include project management, running workshops and strategic work - all complex activities, which require a multitude of skills and competencies. This standard work, which is also well accepted amongst consultants, gives you a reference or cookbook-style access to the most important tools, including a rating of each tool in terms of applicability, ease of use and effectiveness. In this considerably enlarged third edition, Nicolai Andler presents 152 of such tools, grouped into task-specific categories: Definition of a Situation/Problem - Information Gathering - Creativity - Information Consolidation - Goal Setting - Strategic, Technical and Organisational Analysis - Evaluation and Decision Making - Project Management. Checklists and Application Scenarios further enhance the use of this toolbox. Information provided by this book is: - comprehensive and sufficiently wide in scope, combined with a practical level of detail without being too academic - reliable and proven in numerous real implemented cases - easy to apply due to many different search options, checklists, application scenarios and guiding instructions. Written by a professional consultant, business analyst and business coach, this book is a unique reference work and guide for those wanting to learn about or who are active in the fields of consulting, project management and problem solving in general, both in business and engineering: business coaches and management trainers, workshop moderators, consultants and managers, project managers, lecturers and students.

Jolts! Activities to Wake Up and Engage Your Participants Jan 05 2021 Praise for Jolts! "Only Thiagi and his co-author, Tracy, could have devised a list of 50 magical learning moments that are concise and certain to JOLT learners into new perspectives and profound insights. Drawing Ideas Jan 17 2022 A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, *Drawing Ideas* provides a complete foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.

50 Group Exercises in Pairs Nov 15 2021 This book is part of a series of 3 books. The focal point of this book is to work with pairs within a large group. This is an easy to use, step by step guide that can be used for workshops, for group meetings, within therapeutic environments and even to enhance social events. This book was written for group leaders, trainers and therapists who work with groups. This book can be used by veterans and new trainers alike. This is a guide to help you plan and implement workshops while building group dynamics. This book is a stellar collection of 50 different games, exercises and activities, with many variations, that all work well in a circle. The book is here to help you plan well thought out and

properly structured activities and productive rehearsals and workshops. You'll find here activities that support new groups with introductions, ice-breakers, physical and voice warm-ups, to deeper activities that build energy in the room, encouraging focus, playfulness, trust-building and even closer connections between participants. There are also sections on improvisation. Each activity is clearly broken down into several components, starting with the objectives, time allotment, supplies and preparation before the exercise, to a step by step guide for how to teach each exercise with precise details and explanations, and finishes with a reflective conversational piece. Throughout the book there are spaces available for the reader to write their own reflections and learning and the ability to tweak and change the activity to meet their own personal needs.
