Camp Life of Sri Lankan Refugees in India Feb 20 2022 This book looks at the mass migration of refugees into India during the Sri Lankan civil war, the lives of the displaced people in refugee camps and the politics around the issue. It analyses the citizenship policies in India and the social, economic, psychological, political and legal implications of the laws on the lives of Tamil refugees. The book examines the protracted refugee situations in other parts of the globe to build a comparative case study of the Sri Lankan refugees. It delves into the stories and lives of these people in their home country before the war, the crisis and trauma of war, and the experience of living in refugee camps. The volume looks at the role played by the state government of Tamil Nadu, the Indian government and NGOs towards the protection of these refugees and state of facilities for health, safety, education, among others in the camps. It also discusses the possibility of integration and solutions like voluntary repatriation or the granting of citizenship for the people living in these camps. This book will be a useful resource for scholars and researchers of refugee and border studies, human rights, political studies, international relations, political sociology, peace and conflict studies, war and strategic studies, and South Asian studies.
