Intellectual Warfare Apr 26 2020 A hundred-thousand years ago one of the biggest differences between humans and the rest of the animal kingdom was that we were better at catching them than they were at catching us. Today things have changed...somewhat. Thinking is easy. Anyone can think. What's important is thinking intelligently. The problem is that a battle for our minds is taking place, and most people don't even notice. We're influenced from the news, social gatherings, what we read, what we are told, and what everyone else is thinking. Salespeople, marketers, and politicians know thousands of ways to push our minds in one direction or another. The result is that society is littered with people who retain beliefs they cannot explain for reasons they do not know. What you think matters. People fight for

their beliefs, defend them, and in some cases even die for them. Lesser minds might be content with easy answers and poorly thought out explanations. But if you seek a strong mind, you first must ensure that you are capable of overcoming the elements that influence the way you think. Intellectual Warfare is designed to equip you with the tools necessary to win the battle for your mind. The book spans a host of topics ranging from the human ego, natural biases, cognitive illusions, and an entire section on the weapons of persuasion constantly attacking your thought process. Aimed at anyone seeking to improve their intellect, this book will ensure you are making the most of your mind.

E-Squared could best be described as a lab manual with simple experiments to prove once and for all that reality is malleable, that consciousness trumps matter, and that you shape your life with your mind. Rather than take it on faith, you are invited to conduct nine 48-hour experiments to prove there really is a positive, loving, totally hip force in the universe. Yes, you read that right. It says prove. The experiments, each of which can be conducted with absolutely no money and very little time expenditure, demonstrate that spiritual principles are as dependable as gravity, as consistent as Newton's laws of motion. For years, you've been hoping and praying that spiritual principles are true. Now, you can know. E-Squared proves the following: 1. There is an invisible energy force or field of infinite possibilities. 2. You impact the field and draw from it according to your beliefs and expectations. 3. You, too, are a field of energy. 4. Whatever you focus on expands. 5. Your connection to the field provides accurate and unlimited guidance. 6. Your thoughts and consciousness impact matter. 7. Your thoughts and consciousness provide the scaffolding for your physical body. 8. You are connected to everything and everyone else in the universe. 9. The universe is limitless, abundant, and strangely accommodating.

Linda Stout uses her background and her own personal experience of marginalization within the organizing community to show how trainers can be more mindful of the diversity of their members as they strive toward a common goal. The book features a clear, actionable, step-by-step process to set up and create a welcoming space for activist leaders to collaborate for positive change. Advanced Magic: A Course in Manifesting an Exceptional Life (Book 3) Oct 01 2020 Advanced Magic is the final part in the Course in Manifesting trilogy – a complete course in becoming creator of your own exceptional life. In these three books I outline the exact steps that enabled me to move my own life from one of poverty and drudgery, to one of previously unimaginable wealth, purpose and joy. 'But Magic? I do hope you are joking!' That's what I would have said, five or ten years ago. I once despised all things 'New-Age', all these spiritual types and their airy-fairy views, their bad science and their irrational beliefs. I read all the New Thought and Law of Attraction greats, Wallace Wattles, Anthony Robbins, Rhonda Byrne, Napoleon Hill, Esther Hicks and Wayne Dyer. But no matter how closely I followed their instructions for manifesting love, money or happiness, I couldn't make it work. It was only when I recognised, accepted and finally embraced that what I was doing was actually some kind of Magic that suddenly things began to fall into place. Once I realised that the power came from within me, it was as if the light had suddenly been switched on and my manifestations began to work. If you're jaded by the whole New Age Law of Attraction idea, have become bored by its failure to deliver... these books are for

you. It is my intention to lead you by the hand through a marvellous journey of wonder and adventure. Part one of this course, *Becoming Magic*, laid the groundwork for becoming a magical person, while the second book, *Doing Magic*, offered concrete techniques and instructions for bringing wonderful things into your life. And now, finally, we complete the journey with *Advanced Magic*. It's time to think a little deeper, feel a little keener, experience a little more intensely, and so consolidate and strengthen your knowledge. This book is designed to increase the fledgling power that you discovered from the first two books of the course. We now need to build on what has gone before, boosting your success, increasing your Magical power and making your manifestations more reliable... and more spectacular. Be warned: if you want a quick fix of positive thinking, to be told that using Magic and the Law of Attraction is fast and simple, and anyone can master it with ease, I suggest you buy a different book. But if you are serious about mastering *Advanced Magic*, if you are willing to treat this with the reverence, time, care, and study that it deserves, these books are for you. Being really, truly in control of making things happen, attracting things at will, using *Advanced Magic* consistently and reliably, is something of which only a very select few are capable. Come with me, and become one of them. These three books will allow you to complete your journey to becoming a true creator of your own life, reawakening and rekindling your belief and interest in Spirituality, The Law of Attraction, Reality Creation, Cosmic Ordering or whatever you wish to call it. I prefer simply to call it Magic.
