Playing House in the American West May 15 2021 Examining an eclectic group of western women's autobiographical texts—canonical and otherwise—*Playing House in the American West* argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life. The controlling metaphor Cathryn Halverson uses in her engrossing study is “playing house.” From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson, from the mid-nineteenth to the late-twentieth centuries, western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike. The readings in *Playing House* investigate the surprising textual ends to which westerners turn the familiar terrain of the home: evaluating community; arguing for different conceptions of race and class; and perhaps most especially, resisting traditional gender roles. Western women writers, Halverson argues, render the home as a stage for autonomy, resistance, and imagination rather than as a site of sacrifice and obligation. The western women examined in *Playing House in the American West* are promoted and read as representatives of a region, as insiders offering views of distant and intriguing ways of life, even as they conceive of themselves as outsiders. By playing with domestic conventions, they recast the region they describe, portraying the West as a place that fosters female agency, individuality, and subjectivity.

A History of Mystic, Connecticut Dec 30 2019 Tucked away in a natural port, Mystic has long been home to seagoing adventure. In *A History of Mystic, Connecticut*, author and former Mystic Seaport librarian Leigh Fought relates the compelling story of this picturesque coastal community. Forged from the brutal Pequot War, for years Mystic was a quiet little farming village. Then came the War of 1812. Mystic's upstart venture capitalists seized on the war's dislocations to transform the settlement into a shipbuilding powerhouse. The shipyards launched vessels by the hundreds and an industry was born. The Civil War, steam-powered ships and the decline of commercial whaling

halted Mystic's shipbuilding boom. Yet the town recovered, transforming itself into the charming nautical-themed tourist destination that has enchanted millions. Read Fought's comprehensive narrative to discover Mystic's role in New England's thrilling maritime saga.

Experimental Film and Photochemical Practices Aug 18 2021 This book assesses the contemporary status of photochemical film practice against a backdrop of technological transition and obsolescence. It argues for the continued relevance of material engagement for opening up alternative ways of seeing and sensing the world. Questioning narratives of replacement and notions of fetishism and nostalgia, the book sketches out the contours of a photochemical renaissance driven by collective passion, creative resistance and artistic reinvention. Celluloid processes continue to play a key role in the evolution of experimental film aesthetics and this book takes a personal journey into the work of several key contemporary film artists. It provides fresh insight into the communities and infrastructures that sustain this vibrant field and mobilises a wide range of theoretical perspectives drawn from media archaeology, new materialism, ecocriticism and social ecology.

Eihei Dogen: Mystical Realist Nov 20 2021 Eihei Dogen, the founder of the Japanese branch of the Soto Zen Buddhist school, is considered one of the world's most remarkable religious philosophers. Eihei Dogen: Mystical Realist is a comprehensive introduction to the genius of this brilliant thinker. This thirteenth-century figure has much to teach us all and the questions that drove him have always been at the heart of Buddhist practice. At the age of seven, in 1207, Dogen lost his mother, who at her death earnestly asked him to become a monastic to seek the truth of Buddhism. We are told that in the midst of profound grief, Dogen experienced the impermanence of all things as he watched the incense smoke ascending at his mother's funeral service. This left an indelible impression upon the young Dogen; later, he would emphasize time and again the intimate relationship between the desire for enlightenment and the awareness of impermanence. His way of life would not be a sentimental flight from, but a compassionate understanding of, the intolerable reality of existence. At age 13, Dogen received ordination at Mt. Hiei. And yet, a question arose: "As I study both the exoteric and the esoteric schools of Buddhism, they maintain that human beings are endowed with Dharma-nature by birth. If this is the case, why did the buddhas of all ages - undoubtedly in possession of enlightenment - find it necessary to seek enlightenment and engage in spiritual practice?" When it became clear that no one on Mt. Hiei could give a satisfactory answer to this spiritual problem, he sought elsewhere, eventually making the treacherous journey to China. This was the true beginning of a life of relentless questioning, practice, and teaching - an immensely inspiring contribution to the Buddhadharma. As you might imagine, a book as ambitious as Eihei Dogen: Mystical Realist has to be both academically rigorous and eminently readable to succeed. Professor Hee-Jim Kim's work is indeed both.

Your Story Oct 20 2021 We either think our lives are so special that everyone should be interested in what's happened to us, or so ordinary that we can't imagine anyone would care. The truth lies somewhere in between: yes, we are all special, and no, people will not care —unless we write with them in mind. Joanne Fedler, a beloved writing teacher and mentor, has written *Your Story* to help all people, even those who don't necessarily identify as "writers," value their life stories and write them in such a way that they transcend the personal and speak into a universal story. She shows how to write from your life, but for the benefit of others. Filled with practical wisdom and tools, this book tackles: • mind-set issues that prevent us from writing • ways to develop trust (in yourself, the process, the mystery) • triggers or prompts to elicit our own stories • Joanne's original techniques for "lifewriting," developed over a decade of teaching and mentoring • and much more "Joanne understands the writer's loneliness," says one such writer whose life she's touched, the award-winning author Nava Semel. "In this book she has created a menu of encouraging possibilities on how to overcome our fears and dig deep into our souls, so that our true voice can emerge."

Playful Parenting Mar 25 2022 Parents have heard that play is a child's work—but play is not for kids only. As psychologist Lawrence J. Cohen, Ph.D., demonstrates in this delightful new book, play can be the basis for an innovative and rewarding approach to parenting. From eliciting a giggle during baby's first game of peek-a-boo to cracking jokes with a teenager while hanging out at the mall, *Playful Parenting* is a complete guide to using play to raise strong, confident children. Have you ever stepped back to watch what really goes on when your children play? As Dr. Cohen points out, play is children's complex and fluid way of exploring the world, communicating hard-to-express feelings, getting close to those they care about, working through stressful situations, and simply blowing off steam. That's why "playful parenting" is so important and so successful in building strong, close bonds between parents and children. Through play we join our kids in their world. We help them express and understand deep emotions, foster connection, aid the process of emotional healing--and have a great time ourselves while we're at it. Anyone can be a playful parent--all it takes is a sense of adventure and a willingness to let down your guard and try something new. After identifying why it can be hard for adults to play, Dr. Cohen discusses how to get down on the floor and join children on their own terms. He covers games, activities, and playful interactions that parents can enjoy with children of all ages, whether it's gazing deep into a baby's eyes, playing chase with a toddler, fantasy play with a grade schooler, or reducing a totally cool teenager to helpless laughter. *Playful Parenting* also includes illuminating chapters on how to use play to build a child's confidence and self-esteem, how to play through sibling rivalry, and how play can become a part of loving discipline. Written with love and humor, brimming with good advice and revealing anecdotes, and grounded in the latest research, *Playful Parenting* will make you laugh even as it makes you wise in the ways of being a happy, effective, enthusiastic parent.

The First Time Jesus Winked at Me Jan 23 2022 *The First Time Jesus Winked at Me* is a spiritual memoir about how extraordinary moments in an ordinary life move us to a place that Mark Nepo so beautifully describes as our inch of light—that place where we, as humans, grow into grace and our souls shine. The author takes us on a journey through the joy and knee-bending sorrow of her life as she navigates toward a brighter understanding of how faith can light the way to a better understanding of who we are and why we are here.

Women's Experience of Modernity, 1875–1945 Jun 27 2022 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena. Analyzing such cultural practices as selling and shopping, political and social activism, urban field work and rural labor, radical discourses on feminine sexuality, and literary and artistic experimentation, this volume contributes to the rich vein of current feminist scholarship on the "gender of modernism" and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century. During this period, "women's experience" was a rallying cry for feminists, a unifying cause that allowed women to work together to effect social change and make claims for women's rights. However, it also proved to be a source of great divisiveness among women, for claims about its universality quickly unraveled to reveal the classism, racism, and Eurocentrism of various feminist activities and organizations. The essays in this volume examine both literary and non-literary writings of Jane Addams, Djuna Barnes, Toru Dutt, Radclyffe Hall, H.D., Pauline Hopkins, Emma Dunham Kelley, Amy Levy, Alice Meynell, Bram Stoker, Ida B. Wells, Rebecca West, and others. Instead of focusing exclusively or even centrally on modernism and literature, these essays address a broad array of textual materials, from political pamphlets to gynecology textbooks, as they investigate women's responses to the rise of commodity capitalism, middle-class women's entrance into the labor force, the welfare state's invasion of the working-class home, and the intensified eroticization of racial and class differences.

Rooted Jul 17 2021 Deepen your connection to the natural world with this inspiring meditation, "a path to the place where science and spirit meet" (Robin Wall Kimmerer). In *Rooted*, cutting-edge science supports a truth that poets, artists, mystics, and earth-based cultures across the world have proclaimed over millennia: life on this planet is radically interconnected. Our bodies, thoughts, minds, and spirits are affected by the whole of nature, and they affect this whole in return. In this time of crisis, how can we best live upon our imperiled, beloved earth? Award-winning writer Lyanda Lynn Haupt's highly personal new book is a brilliant invitation to live with the earth in both simple and profound ways—from walking barefoot in the woods and reimagining our relationship with animals and trees, to examining the very language we use to describe and think about nature. She invokes rootedness as a way of being in concert with the wilderness—and wildness—that sustains humans and all of life. In the tradition of Rachel Carson, Elizabeth Kolbert, and Mary Oliver, Haupt writes with urgency and grace, reminding us that at the crossroads of science, nature, and spirit we find true hope. Each chapter provides tools for bringing our unique gifts to the fore and transforming our sense of belonging within the magic and wonder of the natural world.

The Mystic Mid-Region: The Deserts of the Southwest Oct 08 2020 "The Mystic Mid-Region" by Arthur J. Burdick is a travelogue about Southwest Deserts including the Great Mojave Desert (Death Valley), the Colorado Desert near Coachella, the Black Rock Desert (Nevada), Salt Lake in Utah, and many more. Excerpt: "Between the lofty ranges of mountains which mark the western boundary of the great Mississippi Valley and the chain of peaks known as the Coast Range, whose western sunny slopes look out over the waters of the placid Pacific, lies a vast stretch of country once known as the "Great American Desert." A few years ago, before the railroad had pierced the fastness of the great West, explorers told of a vast waste of country devoid of water and useful vegetation, the depository of fields of alkali, beds of niter, mountains of borax, and plains of poison-impregnated sands. The bitter sage, the thorny cacti, and the gnarled mesquite were the tantalizing species of herbs said to abound in the region, and the centipede, the rattlesnake, tarantula, and Gila monster represented the life of this desolate territory."

Running with the Fairies Aug 30 2022 *Running with the Fairies: Towards a Transpersonal Anthropology of Religion* is a unique account of the living spirituality and mysticism of fairyfolk in Ireland. Fairyfolk are fairyminded people who have had direct experiences with the divine energy and appearance of fairies, and fairypeople, who additionally know that they have been reincarnated from the Fairy Realm. While fairies have been folklore, superstition, or fantasy for most children and adults, now for the first time in a scholarly work, highly educated persons speak frankly about their religious/spiritual experiences, journeys, and transformations in connection with these angel-like spirit beings. Set in academic and popular historical perspectives, this first scholarly account of the Fairy Faith for over a hundred years, since believer Evans-Wentz's 1911 published doctoral dissertation *The Fairy-Faith in Celtic Countries*, integrates a participatory, "going native" anthropology with transpersonal psychology. Providing extensive verbatim interviews and discussions, this path-breaking work recognizes the reality of nature spirit beings in a Western context. Through intensive on-site fieldwork, the PhD cultural anthropologist author discovers, describes and interviews authentic mystics aligned with these intermediary deific beings. With an extensive introduction placing fairies in the context of the anthropology of religion, animism, mysticism, and consciousness, this daring ethnography considers notions of "belief", "perception", and spiritual "experience", and with intricate detail extends the focus of anthropological research on spirit beings which previously have been considered as locally real only in indigenous and Eastern cultures.

Into the Mystic Jun 03 2020 Explores the visionary, mystical, and ecstatic traditions that influenced the music of the 1960s • Examines the visionary, spiritual, and mystical influences on the Grateful Dead, the Beatles, the Rolling Stones, Bob Dylan, Van Morrison, the Incredible String Band, the Left Banke, Lou Reed and the Velvet Underground, and others • Shows how the British Invasion acted as the "detonator" to explode visionary music into the mainstream • Explains how 1960s rock and roll music transformed consciousness on both the individual and collective levels The 1960s were a time of huge transformation, sustained and amplified by the music of that era: Rock and Roll. During the 19th and 20th centuries visionary and esoteric spiritual traditions influenced first literature, then film. In the 1960s they entered the realm of popular music, catalyzing the ecstatic experiences that empowered a generation. Exploring how 1960s rock and roll music became a school of visionary art, Christopher Hill shows how music raised consciousness on both the individual and collective levels to bring about a transformation of the planet. The author traces how rock and roll rose from the sacred music of the African Diaspora, harnessing its ecstatic power for evoking spiritual experiences through music. He shows how the British Invasion, beginning with the Beatles in the early 1960s, acted as the "detonator" to explode visionary music into the mainstream. He explains how 60s rock and roll made a direct appeal to the imaginations of young people, giving them a larger set of reference points around which to understand life. Exploring the sources 1960s musicians drew upon to evoke the initiatory experience, he reveals the influence of European folk traditions, medieval Troubadours, and a lost American history of ecstatic politics and shows how a revival of the ancient use of psychedelic substances was the strongest agent of change, causing the ecstatic, mythic, and sacred to enter the consciousness of a generation. The author examines the mythic narratives that underscored the work of the Grateful Dead, the French symbolist poets who inspired Bob Dylan, the hallucinatory England of the Beatles' Sgt. Pepper, the tale of the Rolling Stones and the Lord of Misrule, Van Morrison's astral journeys, and the dark mysticism of Lou Reed and the Velvet Underground. Evoking the visionary and apocalyptic atmosphere in which the music of the 1960s was received, the author helps each of us to better understand this transformative era and its mystical roots.

The Spiritual Psyche in Psychotherapy Mar 01 2020 This book examines the interaction of spiritual and psychoanalytic lineages with psychotherapy in everyday practice. Written by a team of seasoned clinicians and illustrated through clinical vignettes, chapters explore topics pertaining to the mystical dimensions of psychological and spiritual life and how it may be integrated into clinical practice. Topics discussed include dreams, dissociation, creativity, therapeutic relationship, free association, transcendence, poetry, paradox, doubleness, loss, death, grief, mystery, embodiment and soul. The authors, clinicians with decades of experience in psychotherapy, psychoanalysis

and spiritual practice, draw from their deep engagement with spirituality and psychoanalysis, focusing on a particular theme and its application to clinical work that is supported by the generative conversation among these lineages. At once applied and theoretical, this book weaves insights from the heart of Vajrayana Buddhism, Zen Buddhism, Christianity, Catholicism, Ecumenicism, Integral Spirituality, Judaism, Kaballah, Non-violence, Sufism and Vedanta. They are in conversation with psychoanalytic perspectives including Jungian, Post-Jungian, Winnicottian, Bionian, Post-Bionian and Relational. A felt sense of the spiritual psyche in clinical practice emerges from this conversation among spiritual and psychoanalytic lineages, beckoning clinicians ever further on the path of spiritually rooted, psychodynamic practice.

The Singing Creek Where the Willows Grow Nov 01 2022 Long before environmental consciousness became popular, a young nature writer named Opal Whitely captured America's heart. Opal's childhood diary, published in 1902, became an immediate bestseller, one of the most talked-about books of its time. Wistful, funny, and wise, it was described by an admirer as "the revelation of the ...life of a feminine Peter Pan of the Oregon wilderness—so innocent, so intimate, so haunting, that I should not know where in all literature to look for a counterpart." But the diary soon fell into disgrace. Condemning it as an adult-written hoax, skeptics stirred a scandal that drove the book into obscurity and shattered the frail spirit of its author. Discovering the diary by chance, bestselling author Benjamin Hoff set out to solve the longstanding mystery of its origin. His biography of Opal that accompanies the diary provides fascinating proof that the document is indeed authentic—the work of a magically gifted child, America's forgotten interpreter of nature.

Mystic Aug 25 2019 The Civil War is finally over, and the survivors have returned to their lives to try to rebuild.

There was very little time for rest and relaxation. Nothing can be truer for the people of the small country town of Mystic. However, something has come to Mystic with the survivors...a game called Base Ball. For many years the people of Mystic have indulged themselves in various kinds of stick-and-ball games...everything from cricket to rounders, to something called Muffin Ball, but none of the games were ever popular enough to become organized...until Base Ball. As the residents of Mystic struggle establish their own Base Ball club, they discover that Base Ball is taking over the nation by storm. With a faithful group of town leaders, a retired Judge, and several veterans, Mystic finds that it is ahead of the storm, instead of getting caught up in it. As the town team forms, and a simple league with other small towns is established, the Mystic town folk enjoy watching their very own team playing this "city game" their way...making mistakes, fumbling over the bases, and arguing with...everyone, the people of Mystic become a true base ball town. Then when captain of the Drummers contacts the Mystic team with a request to come to Mystic to play a fun exhibition game on the Fourth of July, the initial thought was one of reservation...the Drummers were a traveling team of colored players. to the people of Mystic, a town that sided with the Northern Union forces, the prospect of playing a colored "barnstorming" team was cause to celebrate a game that changed the town of Mystic forever.
