[The Modern Text-Book of Astrology](#) Jul 19 2021 It was a long time ago and few alive now remember what life was like in England in the years after World War II. Yes, the Luftwaffe and Vengeance weapons had made a fine mess in the south of the country, but during the war years the Yanks were there, millions of them, seducing the womenfolk, brawling in pubs, and, most importantly, spending their pay with local shopkeepers. May, 1945, the war ended and all the Americans left. Most went home, but a sizeable contingent set up shop in Germany, where, to the best of their ability given the local ruins, they carried on as before, seducing the womenfolk, brawling in pubs and spending their pay with the surviving shopkeepers. The Americans were joined by contingents of English, French and Soviet troops. As a result, the surprising fact, long forgotten, is that after the war, conditions in England were even worse than they were in post-Third Reich Germany. Some in Britain rued winning the war, as deprivation became their fate. In London after the war books were so scarce that used vendors had long lists of people waiting for the few books that turned up. For schools in London which taught astrology, the situation was impossible. Responding to the post WWII book shortage, Margaret Hone published this ultimate Astrology Text-Book. She was born in Birmingham, England, on October 2, 1892, at 2:13 am. Her ascendant was 27 Leo; her Sun was 9 Libra; her Moon was 13 Aquarius. Her midheaven was 15 Taurus. Of Ms Hone, James Holden wrote, "English astrologer, educator, and author. She was a professional astrologer and private teacher for many years and later was Principal and Director of Studies of the Faculty of Astrological Studies 1954-1969 and Vice President of the Astrological Lodge of London. Mrs. Hone was an advocate of the Equal House system of house division. She is best known in the U.S. for her two instruction manuals." This book is dedicated to Charles E.O. Carter, 1887-1968. Carter succeeded Alan Leo as head of the Astrological Lodge (1920-1952) and was First Principal of the Faculty of Astrological Studies, which he helped found in 1948. Hone succeeded Carter at FAS. She passed away on October 14, 1969. In his Preface, while quick to praise Hone, a personal friend, Charles Carter also pointed out that this book's high price was justified, that "padding has been rigorously excluded." He goes on to praise the workmanship, the carefully worded definitions, as well as the fact that the book was complete and entire in itself. Save for ephemeris and tables of houses, this one book would suffice beginning as well as advanced students for some years. In addition, Hone also includes one of the earliest modern histories of astrology, short biographies of leading astrologers past and present, astrology and public opinion (daily horoscopes in the newspapers were a recent innovation). On a more practical side, Hone gives a thorough analysis of the principal house systems of the day (Equal, Campanus, Regiomontanus, Placidus), and even mentions C.G. Jung's recently developed Depth Psychology.

[Fatty Legs](#) Nov 30 2019 Eight-year-old Margaret Pokiak has set her sights on learning to read, even though it means leaving her village in the high Arctic. Faced with unceasing pressure, her father finally agrees to let her make the five-day journey to attend school, but he warns Margaret of the terrors of residential schools. At school Margaret soon encounters the Raven, a black-cloaked nun with a hooked nose and bony fingers that resemble claws. She immediately dislikes the

strong-willed young Margaret. Intending to humiliate her, the heartless Raven gives gray stockings to all the girls — all except Margaret, who gets red ones. In an instant Margaret is the laughingstock of the entire school. In the face of such cruelty, Margaret refuses to be intimidated and bravely gets rid of the stockings. Although a sympathetic nun stands up for Margaret, in the end it is this brave young girl who gives the Raven a lesson in the power of human dignity. Complemented by archival photos from Margaret Pokiak-Fenton's collection and striking artworks from Liz Amini-Holmes, this inspiring first-person account of a plucky girl's determination to confront her tormentor will linger with young readers.

Margaret Atwood Sep 01 2022 Novelist, poet, cultural critic, Margaret Atwood is one of the most fascinating, versatile, and productive authors of our time, a superb writer in any genre she chooses to tackle. This book was prepared on the occasion of Atwood's sixtieth birthday in November 1999. Its first aim is therefore to take stock of Atwood's multifarious works and international impact at the height of her creative powers. Secondly, the book serves as a wide-ranging introduction to the writer and her works. Fifteen informative articles written specifically for this volume by Atwood specialists from Canada, the USA, the UK, Germany, and France treat her life and status, her works (up-to-date survey articles on Atwood's novels, short fiction, poetry, and literary and cultural criticism), and important approaches to her works (from the standpoints of gender politics, mythology, ecology, popular culture, constructivism, and Canadian nationalism). A final section on creativity, transmission, and reception includes an interview with Atwood on creativity, statements by some of Atwood's important transmitters, including publishers, editors, literary agents, and translators, and some 15 statements by Atwood's fellow writers, in which they explore her importance for them. A number of photographs of Atwood, several cartoons drawn by her, an up-to-date bibliography of works by and about Atwood, and an index round out the volume. Reingard M. Nischik is Professor of American literature at the University of Konstanz, Germany.

World War II 365 Days Jun 17 2021 "This unique compendium, drawn from the Library of Congress's vast collections, presents the story of a tumultuous era in which the very survival of democracy -- and the free flow of knowledge on which democracy depends -- was at issue. In these pages you will find photographs, maps, political cartoons, drawings, posters, and paintings created by people of many nations"--Preface.

The Last Puritans Sep 20 2021 Congregationalists, the oldest group of American Protestants, are the heirs of New England's first founders. While they were key characters in the story of early American history, from Plymouth Rock and the founding of Harvard and Yale to the Revolutionary War, their luster and numbers have faded. But Margaret Bendroth's critical history of Congregationalism over the past two centuries reveals how the denomination is essential for understanding mainline Protestantism in the making. Bendroth chronicles how the New England Puritans, known for their moral and doctrinal rigor, came to be the antecedents of the United Church of Christ, one of the most liberal of all Protestant denominations today. The demands of competition in the American religious marketplace spurred Congregationalists, Bendroth argues, to face their distinctive history. By engaging deeply with their denomination's storied past, they recast their modern identity. The soul-searching took diverse forms--from letter writing and eloquent sermonizing to Pilgrim-celebrating Thanksgiving pageants--as Congregationalists renegotiated old obligations to their seventeenth-century spiritual ancestors. The result was a modern piety that stood a respectful but ironic distance from the past and made a crucial contribution to the American ethos of religious tolerance.

How Am I to Be Heard? Aug 27 2019 This compelling volume offers the first full portrait of the life and work of writer Lillian Smith (1897-1966), the foremost southern white liberal of the mid-twentieth century. Smith devoted her life to lifting the veil of southern self-deception about race, class, gender, and sexuality. Her books, essays, and especially her letters explored the ways in which the South's attitudes and institutions perpetuated a dehumanizing experience for all its people--white and black, male and female, rich and poor. Her best-known books are *Strange Fruit* (1944), a bestselling interracial love story that brought her international acclaim; and *Killers of the Dream* (1949), an autobiographical critique of southern race relations that angered many southerners, including powerful moderates. Subsequently, Smith was effectively silenced as a writer. Rose Gladney has selected 145 of Smith's 1500 extant letters for this volume. Arranged chronologically and annotated, they present a complete picture of Smith as a committed artist and reveal the burden of her struggles as a woman, including her lesbian relationship with Paula Snelling. Gladney argues that this triple isolation--as woman, lesbian, and artist--from mainstream southern culture permitted Smith to see and to expose southern prejudices with absolute clarity.

I Heard the Owl Call My Name Jul 27 2019 Amid the grandeur of the remote Pacific Northwest stands Kingcome, a village so ancient that, according to Kwakiutl myth, it was founded by the two brothers left on earth after the great flood. The Native Americans who still live there call it Quee, a place of such incredible natural richness that hunting and fishing remain primary food sources. But the old culture of totems and potlatch is being replaced by a new culture of prefab housing and alcoholism. Kingcome's younger generation is disenchanting and alienated from its heritage. And now, coming upriver is a young vicar, Mark Brian, on a journey of discovery that can teach him—and us—about life, death, and the transforming power of love.

Mining for God's Gold in Life's Dark Valleys Apr 27 2022 I have selected scriptures to remind each of us to consider, and perhaps reconsider, how we respond to the seemingly inescapable valleys that come into our lives."This is my comfort in my affliction, That Your word has revived me."-Psalms 119:50 Throughout the book, you will read about the experiences of others who have mined or are continuing to mine their own painful, challenging valleys. May their Godly examples serve as beacons of light to help us in our quest to keep our love for God and His Word safely intact and the salvation of our oft

endangered souls our primary focus. May we fully appreciate their willingness to recall and relate their very painful personal experiences so that we might grow in strength and perseverance.

America and the Great War Oct 29 2019 Choice Magazine Outstanding Academic Titles of the Year for 2017 "A uniquely colorful chronicle of this dramatic and convulsive chapter in American--and world--history. It's an epic tale, and here it is wondrously well told." --David M. Kennedy, Pulitzer Prize-winning historian and author of FREEDOM FROM FEAR From August 1914 through March 1917, Americans were increasingly horrified at the unprecedented destruction of the First World War. While sending massive assistance to the conflict's victims, most Americans opposed direct involvement. Their country was immersed in its own internal struggles, including attempts to curb the power of business monopolies, reform labor practices, secure proper treatment for millions of recent immigrants, and expand American democracy. Yet from the first, the war deeply affected American emotions and the nation's commercial, financial, and political interests. The menace from German U-boats and failure of U.S. attempts at mediation finally led to a declaration of war, signed by President Wilson on April 6, 1917. America and the Great War commemorates the centennial of that turning point in American history. Chronicling the United States in neutrality and in conflict, it presents events and arguments, political and military battles, bitter tragedies and epic achievements that marked U.S. involvement in the first modern war. Drawing on the matchless resources of the Library of Congress, the book includes many eyewitness accounts and more than 250 color and black-and-white images, many never before published. With an introduction by Pulitzer Prize-winning historian David M. Kennedy, America and the Great War brings to life the tempestuous era from which the United States emerged as a major world power.

Strange Things Oct 22 2021 Margaret Atwood's witty and informative book focuses on the imaginative mystique of the wilderness of the Canadian North. She discusses the 'Grey Owl Syndrome' of white writers going native; the folklore arising from the mysterious-- and disastrous -- Franklin expedition of the nineteenth century; the myth of the dreaded snow monster, the Wendigo; the relations between nature writing and new forms of Gothic; and how a fresh generation of women writers in Canada have adapted the imagery of the Canadian North for the exploration of contemporary themes of gender, the family and sexuality. Writers discussed include Robert Service, Robertson Davies, Alice Munro, E.J. Pratt, Marian Engel, Margaret Laurence, and Gwendolyn MacEwan. This superbly written and compelling portrait of the mysterious North is at once a fascinating insight into the Canadian imagination, and an exciting new work from an outstanding literary presence.

Encounters with Aging Mar 03 2020 Margaret Lock explicitly compares Japanese and North American medical and political accounts of female middle age to challenge Western assumptions about menopause. She uses ethnography, interviews, statistics, historical and popular culture materials, and medical publications to produce a richly detailed account of Japanese women's lives. The result offers irrefutable evidence that the experience and meanings—even the endocrinological changes—associated with female midlife are far from universal. Rather, Lock argues, they are the product of an ongoing dialectic between culture and local biologies. Japanese focus on middle-aged women as family members, and particularly as caretakers of elderly relatives. They attach relatively little importance to the end of menstruation, seeing it as a natural part of the aging process and not a diseaselike state heralding physical decline and emotional instability. Even the symptoms of midlife are different: Japanese women report few hot flashes, for example, but complain frequently of stiff shoulders. Articulate, passionate, and carefully documented, Lock's study systematically undoes the many preconceptions about aging women in two distinct cultural settings. Because it is rooted in the everyday lives of Japanese women, it also provides an excellent entree to Japanese society as a whole. Aging and menopause are subjects that have been closeted behind our myths, fears, and misconceptions. Margaret Lock's cross-cultural perspective gives us a critical new lens through which to examine our assumptions.

Trading Barriers Nov 22 2021 Why have countries increasingly restricted immigration even when they have opened their markets to foreign competition through trade or allowed their firms to move jobs overseas? In Trading Barriers, Margaret Peters argues that the increased ability of firms to produce anywhere in the world combined with growing international competition due to lowered trade barriers has led to greater limits on immigration. Peters explains that businesses relying on low-skill labor have been the major proponents of greater openness to immigrants. Immigration helps lower costs, making these businesses more competitive at home and abroad. However, increased international competition, due to lower trade barriers and greater economic development in the developing world, has led many businesses in wealthy countries to close or move overseas. Productivity increases have allowed those firms that have chosen to remain behind to do more with fewer workers. Together, these changes in the international economy have sapped the crucial business support necessary for more open immigration policies at home, empowered anti-immigrant groups, and spurred greater controls on migration. Debunking the commonly held belief that domestic social concerns are the deciding factor in determining immigration policy, Trading Barriers demonstrates the important and influential role played by international trade and capital movements.

India's Kathak Dance in Historical Perspective Apr 03 2020 Kathak, the classical dance of North India, combines virtuosic footwork and dazzling spins with subtle pantomime and soft gestures. As a global practice and one of India's cultural markers, kathak dance is often presented as heir to an ancient Hindu devotional tradition in which men called Kathakas danced and told stories in temples. The dance's repertoire and movement vocabulary, however, tell a different story of syncretic origins and hybrid history - it is a dance that is both Muslim and Hindu, both devotional and entertaining, and both male and female. Kathak's multiple roots can be found in rural theatre, embodied rhythmic repertoire, and courtesan performance practice, and its history is inextricable from the history of empire, colonialism, and independence in India. Through an analysis both broad and deep of primary and secondary sources, ethnography, iconography and current performance practice, Margaret Walker undertakes a critical approach to the history of kathak dance and presents new data about hereditary performing artists, gendered contexts and practices, and postcolonial cultural reclamation. The account that emerges places kathak and the Kathaks firmly into the living context of North Indian performing arts.
