Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. Alone Yet Not Alone Jun 21 2022 Autumn of 1755 bestowed to the Leiningers' world, not only its rich beauties, but also a rewarding harvest. On this particular day the whole valley seemed to rejoice in the fullness of the season—but suddenly Barbara and Regina's peaceful frontier life is changed forever. General Braddock and his army had been defeated and soon the Pennsylvania settlers would suffer the bloody effects of the French and Indian War. On October 16, 1755, a band of Indians, led by Allegheny warriors, stormed through Buffalo Valley, burned the Leiningers' log cabin, and captured the sisters. Few survived the Penn's Creek Massacre and even fewer lived to tell the story. Regina makes a promise to her older sister just before they are unwillingly separated—each to endure different fates. Barbara is taken deep into the wilderness, but holds on to the hope that she will find her little sister. Though she is adopted into the Indian tribe, there is a longing deep inside that cannot be denied. She must escape—but the penalty if caught is certain death. No one expresses Barbara's apprehensions better than her own words, written in 1759: "If one could not believe that there is a God, who helps and saves from death, one had better let running away alone...The extreme probability that the Indians would pursue and recapture us, was two to one compared with the dim hope that, perhaps, we would get through...even if we did escape the Indians, how would we ever succeed in passing through the wilderness, unacquainted with a single path or trail..."

We Are Not Alone Mar 18 2022 Life on Mars exists but we are too timid to accept the facts Life on Mars exists but are we brave enough to accept the facts? Extraterrestrial life exists and there's evidence to prove it The question 'are we alone?' has haunted the human race for centuries. In this compelling and controversial work, Dirk Schulze-Makuch and David Darling argue that we already know the answer: no. Abundant extraterrestrial life is astrobiological fact and there is evidence to prove it. Far from existing light-years away in the outer reaches of space, it's on our very doorstep. From methane oceans on Titan to advanced organic molecules on Mars, Schulze-Makuch and Darling contend that microbial life is a near certainty both in the Solar System and beyond. Using the latest scientific data, including from the Phoenix probe, which landed on Mars in 2008, We Are Not Alone stands to truly revolutionize our perception of our place in the universe.

Not Alone Nov 14 2021 Depression is a very real experience for many people. The causes can be varied. Abuse. Chemical imbalances. Divorce. Rejection. There is no one reason that a person might suffer depression. However, one common theme is that it can leave the person feeling isolated and alone. Because of the stigma that is often associated with depression, people often remain silent about it, never knowing that the person next to them is going through the same thing or has experienced it in the past. Instead, they hide away, believing that no one understands, believing that no one cares. In this book, the authors break the silence, boldly sharing their stories of depression. Whether sharing how they first discovered that what they were feeling was depression, telling how they sought help for their depression or giving words of hope that depression can be managed, the authors all tackle the lie that you must suffer in solitude. With courage and honesty, these stories give a glimpse into the depressed existence. While you will not find a cure for depression in these pages, you will find a sense of community. You will find words of hope. You will find that you are Not Alone. Endorsements "Stories are powerful. They humanize us, wreak havoc on our prejudices, and bind us together like societal glue. The personal essays in Not Alone do all these things. For those of us outside depression, they help us recognize bits of ourselves in an unfamiliar landscape. For those

already intimate with depression, these stories can be a lifeline to community, an extended hand in the darkness. They show us no one is alone, and that point is worth celebrating." - Jason Boyett, author of *O Me of Little Faith* and the *Pocket Guide* series "When our journeys take us down dark and unfamiliar paths, we don't need leaders with all the answers; we need friends with open arms. *Not Alone* brings together the voices of many such friends in essays that are alive with wisdom, honesty, humor, and grace. What makes this book so powerful is the diversity of the stories shared within it. No two journeys through depression are exactly the same, and yet no one needs to travel alone. What a joy it is to see such an impressive assemblage of smart, talented, and creative writers speaking words of hope into the world!" - Rachel Held Evans, popular blogger and author of *Evolving in Monkey Town* "A book like this transcends a memoir. These essays make up a quasi-support group, where the reader can share in the experiences of multiple sufferers. Highly recommended for those who want to understand the 'human' element of depression." - Rob Dobrenski, Ph.D., Licensed Psychologist and author of *Crazy: Notes on and off the Couch*
